

DofE with a difference was created so people can still participate and complete this award during Covid. It has brought in new measures and rules that allows people to still complete the award with Covid restrictions and measures in place.

Some of these new measures are that you can change your activity more than once, just in case your activity has to stop or cannot be continued due to Covid restrictions. Another one is that you can volunteer for a family member such as helping a younger sibling with homework, this is so it can be done at home.

Participants can now start the next level before completing their expedition, because there may be delays that are stopping people from doing their current expedition for quite a while.

The link to the website that gives all the information on DofE with a difference is here:

<https://www.dofe.org/dofewithadifference/programme-changes>

DofE has also made a new article about ideas that you can do from your house if you are stuck at home due to covid. This link is here :
