

eDofE is the online system that means you can record your DofE programme and activities, and prove what you've done in loads of different ways. It can also be accessed via the edofe app available for both Apple and Android devices.

<https://www.dofe.org/app/>

To achieve an Award, you need to prove the activities you've been doing, show how you've progressed and that you've met the goals you set for each section. (each of the three activity sections- Volunteering, Physical and Skills take up an hour a week).

Once you're a DofE participant, your Leader will set up your eDofE account - and you're ready to start choosing your activities and setting your objectives. Ideas for activities can be found on the link <https://www.dofe.org/do/ideas/>

To help you get started and working with eDofE, a number of useful videos have been uploaded onto YouTube at the following web address.
