Coastal Academies Trust (CAT)

CAT SAFEGUARDING STATEMENT

CAT is wholly committed to ensuring that all children and young people are cared for in a safe, nurturing and secure environment in our academies. We are fully committed to safeguarding and promoting the welfare of all the pupils and staff within the academy trust and expect all staff and volunteers to share this commitment. To fulfil this commitment we have robust systems in place for:

- Policy and procedures
- Safe recruitment of staff and volunteers
- CAT responsibilities
- Training

Policy and procedure

The Child Protection/Safeguarding policy is reviewed and agreed on an annual basis to ensure that key messages from legislation and guidance are embedded within all of our academies. Policy and procedures are developed using Keeping Children Safe in Education September 2022 and other key Government guidance.

Additional support and challenge is made to ensure other safeguarding policies and procedures are effective such as Online Safety, Anti Bullying, Codes of Conduct, Pupil Behaviour and Attendance.

CAT expects that each academy will follow the guidance and child protection procedures provided by their Local Authority children's services departments.

Safe recruitment of staff and volunteers

Safer recruitment is an important part of safeguarding children and is the first step to safeguarding and promoting the welfare of children in education. CAT views it is vital that there is a culture of safe recruitment and has adopted recruitment procedures that will deter, reject and identify people who might be unsuitable to work with children and young people.

Each academy has a Safer Recruitment Policy to ensure that the recruitment and selection processes outlined:

- are robust and meet the requirements of Keeping Children Safe in Education September 2022
- have relevant vetting and checking procedures
- include a robust induction
- provide an ongoing training infrastructure

The policy outlines the steps that academies within our trust will take to ensure those employed in our academies are safe to work with children and young people and its main purpose is:

- to prevent unsuitable people working within our schools
- to attract the best possible candidates to work in our schools
- to create and maintain a safe workforce

Each school maintains a single central record to provide reassurance that all staff and volunteers are recruited safely. The trust undertakes annual peer to peer checks across the trust which include providing challenge and support to ensure the SCR is compliant.

CAT responsibilities

CAT is committed to the following core safeguarding principles;

- The Trust's responsibility to safeguard and promote the welfare of children is of paramount importance.
- All children, regardless of age, gender, ability, culture, race, language, religion or sexual identity, have equal rights to protection.
- Children who are safe and feel safe are better equipped to learn.
- The Trust is committed to safeguarding and promoting the welfare of children and young people and expects all staff, volunteers, Governors and Directors to share this commitment.
- All staff, volunteers, Governors and Directors have an equal responsibility to act on any suspicion or disclosure that may suggest a child is at risk of harm at home, in the community or in an academy.
- If, at any point, there is a risk of immediate serious harm to a child a referral will be made to Children's Social Care immediately.
- All staff members will maintain an attitude of 'It could happen here' where safeguarding is concerned. When concerned about the welfare of a child, staff members are to always act in the interests of the child.
- Students and staff involved in child protection issues will receive appropriate support.
- Policies will be reviewed at least annually unless an incident or new legislation or guidance suggests the need for an interim review.

Training

CAT ensures that its academies comply with training requirements as defined in Keeping Children Safe in Education;

- All school staff must undergo safeguarding and child protection training at induction and a signed record will be kept of those who have attended. This training should be updated "regularly" and a record will be kept of those who have attended.
- Safeguarding training during induction should give staff an awareness of the school's safeguarding systems. Induction training should also cover:
 - The child protection policy
 - The staff behaviour policy/code of conduct (training should cover the school's whistleblowing procedures)
 - The role of the designated safeguarding lead (DSL)
 - The DSL and any deputy DSLs should undergo training that provides them with the knowledge and skills needed to perform the role. This training should be updated every two years.
 - The DSL should undertake training on the government's anti-radicalisation strategy, Prevent. All staff, volunteers and Governors receive Prevent training.
 - The knowledge and skills of the DSL and deputies should be updated "at regular intervals".
 - The DSL and Deputy DSLs across the trust meet as a group during the academic year to share practice, updates and feedback on peer to peer to reviews, to ensure compliance and consistency of approach across the trust
- Safer recruitment training is completed for required staff and Chair of Governors.
- Our academies are additionally required to ensure all staff, volunteers and Governors have opportunities to explore learning in relation to female genital mutilation, managing allegations and online safety.

1. Aims

The school aims to ensure that:

- Appropriate action is taken in a timely manner to safeguard and promote children's welfare
- All staff are aware of their statutory responsibilities with respect to safeguarding
- Staff are properly training in recognising and reporting safeguarding issues

2. Legislation and statutory guidance

This policy is based on the Department for Education's statutory guidance [Keeping Children Safe in Education \(2022\)](#) and [Working Together to Safeguard Children \(2018\)](#), and the [Governance Handbook](#). We comply with this guidance and the arrangements agreed and published by our 3 local safeguarding partners.

This policy is also based on the following legislation:

- Part 3 of the schedule to the [Education \(Independent School Standards\) Regulations 2014](#), which places a duty on academies and independent schools to safeguard and promote the welfare of pupils at the school
- [The Children Act 1989](#) (and [2004 amendment](#)), which provides a framework for the care and protection of children
- Section 5B(11) of the Female Genital Mutilation Act 2003, as inserted by section 74 of the [Serious Crime Act 2015](#), which places a statutory duty on teachers to report to the police where they discover that female genital mutilation (FGM) appears to have been carried out on a girl under 18
- [Statutory guidance on FGM](#), which sets out responsibilities with regards to safeguarding and supporting girls affected by FGM
- [The Rehabilitation of Offenders Act 1974](#), which outlines when people with criminal convictions can work with children
- Schedule 4 of the [Safeguarding Vulnerable Groups Act 2006](#), which defines what 'regulated activity' is in relation to children
- [Statutory guidance on the Prevent duty](#), which explains schools' duties under the Counter-Terrorism and Security Act 2015 with respect to protecting people from the risk of radicalisation and extremism

This policy also complies with our funding agreement and articles of association.

3. Definitions

Safeguarding and promoting the welfare of children means:

- protecting children from maltreatment
- preventing the impairment of children's mental and physical health or development
- ensuring that children grow up in circumstances consistent with the provision of safe and effective care, and • taking action to enable all children to have the best outcomes
- (Children includes everyone under the age of 18)

Child protection is part of this definition and refers to activities undertaken to prevent children suffering, or being likely to suffer, significant harm.

Abuse is a form of maltreatment of a child, and may involve inflicting harm or failing to act to prevent harm. Appendix 1 explains the different types of abuse.

Neglect is a form of abuse and is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Appendix 1 defines neglect in more detail.

Sharing of nudes and semi-nudes (also known as sexting or youth produced sexual imagery) is where children share nude or semi-nude images, videos or live streams.

Children includes everyone under the age of 18.

The following 3 **safeguarding partners** are identified in Keeping Children Safe in Education (and defined in the Children Act 2004, as amended by chapter 2 of the Children and Social Work Act 2017). They will make arrangements to work together to safeguard and promote the welfare of local children, including identifying and responding to their needs:

- The local authority (LA)
- A clinical commissioning group for an area within the LA
- The chief officer of police for a police area in the LA area

4. Equality statement

Some children have an increased risk of abuse, and additional barriers can exist for some children with respect to recognising or disclosing it. We are committed to anti-discriminatory practice and recognise children's diverse circumstances. We ensure that all children have the same protection, regardless of any barriers they may face.

We give special consideration to children who:

- Have special educational needs (SEN) or disabilities or health conditions (see section 10)
- Are young carers
- May experience discrimination due to their race, ethnicity, religion, gender identification or sexuality
- Have English as an additional language
- Are known to be living in difficult situations – for example, temporary accommodation or where there are issues such as substance abuse or domestic violence
- Are at risk of FGM, sexual exploitation, forced marriage, or radicalisation
- Are asylum seekers
- Are at risk due to either their own or a family member's mental health needs
- Are looked after or previously looked after (see section 12)
- Are missing from education
- Whose parent/carer has expressed an intention to remove them from school to be home educated

5. Roles and responsibilities

Safeguarding and child protection is **everyone's** responsibility. This policy applies to all staff, volunteers and governors in the school and is consistent with the procedures of the 3 safeguarding partners. Our policy and procedures also apply to extended school and off-site activities.

5.1 All staff

All staff will read and understand part 1 and annex A of the Department for Education's statutory safeguarding guidance, [Keeping Children Safe in Education](#), and review this guidance at least annually.

All staff will sign a declaration at the beginning of each academic year to say that they have reviewed the guidance.

All staff will be aware of:

- Our systems which support safeguarding, including this child protection and safeguarding policy, the staff code of conduct, the role and identity of the designated safeguarding lead (DSL) and deputies, the behaviour policy, school procedures for Children Missing Education (including the KCC CME Guidance Document); School Whistleblowing Procedure; Staff Social Networking Acceptable Use Policy; and the IT Acceptable Use Policy for Staff and Third Parties.
- The early help process (sometimes known as the common assessment framework) and their role in it, including identifying emerging problems, liaising with the DSL, and sharing information with other professionals to support early identification and assessment
- The process for making referrals to local authority children's social care and for statutory assessments that may follow a referral, including the role they might be expected to play
- What to do if they identify a safeguarding issue or a child tells them they are being abused or neglected, including specific issues such as FGM, and how to maintain an appropriate level of confidentiality while liaising with relevant professionals
- The signs of different types of abuse and neglect, as well as specific safeguarding issues, such as peer-on-peer abuse, child sexual exploitation (CSE), child criminal exploitation (CCE), indicators of being at risk from or involved with serious violent crime, FGM and radicalisation
- The importance of reassuring victims that they are being taken seriously and that they will be supported and kept safe

Section 15 and appendix 4 of this policy outline in more detail how staff are supported to do this.

5.2 The designated safeguarding lead (DSL)

The DSL is a member of the senior leadership team. Our DSL is Rachel Richards (Assistant Headteacher). The DSL takes lead responsibility for child protection and wider safeguarding in the school.

During term time, the DSL will be available during school hours for staff to discuss any safeguarding concerns. Out of school hours, the DSL can be contacted by email richards@danecourt.kent.sch.uk.

When the DSL is absent, the deputies (Gemma Bolt, Anita Ives, Chris Pleasant, Lucy Holmes) will act as cover.

If the DSL and deputies are not available, Martin Jones (Headteacher) and Luke Wakeley (Assistant Headteacher) will act as cover (for example, during out-of-hours/out-of-term activities).

The DSL will be given the time, funding, training, resources and support to:

- Provide advice and support to other staff on child welfare and child protection matters
- Take part in strategy discussions and inter-agency meetings and/or support other staff to do so
- Contribute to the assessment of children
- Refer suspected cases, as appropriate, to the relevant body (local authority children's social care, Channel programme, Disclosure and Barring Service, and/or police), and support staff who make such referrals directly

The DSL will also keep the headteacher informed of any issues, and liaise with local authority case managers and designated officers for child protection concerns as appropriate.

The full responsibilities of the DSL and deputies are set out in their job description.

5.3 The governing board

The governing board will:

- Facilitate a whole-school approach to safeguarding, ensuring that safeguarding and child protection are at the forefront and underpin all relevant aspects of process and policy development
- Evaluate and approve this policy at each review, ensuring it complies with the law, and hold the headteacher to account for its implementation
- Appoint a link governor ([Kiershen Mackenzie](#)) to monitor the effectiveness of this policy in conjunction with the full governing board. This is always a different person from the DSL

The chair of governors will act as the 'case manager' in the event that an allegation of abuse is made against the headteacher, where appropriate (see appendix 3).

All governors will read Keeping Children Safe in Education in its entirety.

Section 15 of this policy has information on how governors are supported to fulfil their role.

5.4 The headteacher

The headteacher is responsible for the implementation of this policy, including:

- Ensuring that staff (including temporary staff) and volunteers:
 - Are informed of our systems which support safeguarding, including this policy, as part of their induction
 - Understand and follow the procedures included in this policy, particularly those concerning referrals of cases of suspected abuse and neglect
- Communicating this policy to parents/carers when their child joins the school and via the school website
- Ensuring that the DSL has appropriate time, funding, training and resources, and that there is always adequate cover if the DSL is absent
- Ensuring that all staff undertake appropriate safeguarding and child protection training, and updating the content of the training regularly
- Acting as the 'case manager' in the event of an allegation of abuse made against another member of staff or volunteer, where appropriate (see appendix 3)

6. Confidentiality

- Timely information sharing (within the school and trust, and with the 3 safeguarding partners and other agencies) is essential to effective safeguarding
- Fears about sharing information must not be allowed to stand in the way of the need to promote the welfare, and protect the safety, of children
- The Data Protection Act (DPA) 2018 and UK GDPR do not prevent, or limit, the sharing of information for the purposes of keeping children safe
- If staff need to share 'special category personal data', the DPA 2018 contains 'safeguarding of children and individuals at risk' as a processing condition that allows practitioners to share information without consent if it is not possible to gain consent, it cannot be reasonably expected that a practitioner gains consent, or if to gain consent would place a child at risk
- Staff should never promise a child that they will not tell anyone about a report of abuse, as this may not be in the child's best interests
- The government's [information sharing advice for safeguarding practitioners](#) includes 7 'golden rules' for sharing information, and will support staff who have to make decisions about sharing information
 - 1. Remember that the General Data Protection Regulation (GDPR), Data Protection Act 2018 and human rights law are not barriers to justified information sharing, but provide a framework to ensure that personal information about living individuals is shared appropriately.

- 2. Be open and honest with the individual (and/or their family where appropriate) from the outset about why, what, how and with whom information will, or could be shared, and seek their agreement, unless it is unsafe or inappropriate to do so.
- 3. Seek advice from other practitioners, or your information governance lead, if you are in any doubt about sharing the information concerned, without disclosing the identity of the individual where possible.
- 4. Where possible, share information with consent, and where possible, respect the wishes of those who do not consent to having their information shared. Under the GDPR and Data Protection Act 2018 you may share information without consent if, in your judgement, there is a lawful basis to do so, such as where safety may be at risk. You will need to base your judgement on the facts of the case. When you are sharing or requesting personal information from someone, be clear of the basis upon which you are doing so. Where you do not have consent, be mindful that an individual might not expect information to be shared.
- 5. Consider safety and well-being: base your information sharing decisions on considerations of the safety and well-being of the individual and others who may be affected by their actions.
- 6. Necessary, proportionate, relevant, adequate, accurate, timely and secure: ensure that the information you share is necessary for the purpose for which you are sharing it, is shared only with those individuals who need to have it, is accurate and upto-date, is shared in a timely fashion, and is shared securely.
- 7. Keep a record of your decision and the reasons for it – whether it is to share information or not. If you decide to share, then record what you have shared, with whom and for what purpose.
- If staff are in any doubt about sharing information, they should speak to the designated safeguarding lead (or deputy)
- Confidentiality is also addressed in this policy with respect to record-keeping in section 14, and allegations of abuse against staff in appendix 3

7. Recognising abuse and taking action

Staff, volunteers and governors must follow the procedures set out below in the event of a safeguarding issue.

Please note – in this and subsequent sections, you should take any references to the DSL to mean “the DSL (or deputy DSL)”.

7.1 If a child is suffering or likely to suffer harm, or in immediate danger

Make a referral to children’s social care and/or the police **immediately** if you believe a child is suffering or likely to suffer from harm, or is in immediate danger. **Anyone can make a referral.**

Tell the DSL (see section 5.2) as soon as possible if you make a referral directly.

- a. Anyone can refer to Integrated Children’s Services (Early Help and Social Services) although this will usually come through the DSL/DDSL. In the absence of the DSL/DDSL, the Headteacher will make the decision. To help with this decision the DSL/DDSL may choose to consult with the Education Safeguarding Service (Area Safeguarding). Advice may also be sought from Integrated Children’s Services (Early Help and Social Services), via the Integrated Front Door, who offer opportunities for consultation as part of the child in need/child protection process. Issues discussed during the consultations may include the urgency and gravity of the concerns for a child or young person and the extent to which parents/carers are made aware of these. Some concerns may need to be monitored over a period of time before a decision to refer to Integrated Children’s Services (Early Help and Social Services) is made. In all but the most exceptional cases parents/carers will be made aware of the concerns felt for a child at the earliest possible stage and in the event of this becoming necessary, their agreement to a referral to Integrated Children’s Services will be obtained. Details of the referral document will be agreed with the parent or carer by the referrer.
- b. Referrals to Integrated Children’s Services (Early Help and Social Services) will be made using Kent’s Children’s Portal (<https://kccchildrens.kent.gov.uk/web/portal/pages/home>), via the Integrated Front Door on the Kelsi website. Where it is believed that there is an immediate

safeguarding concern for a child or young person, the referral should be submitted as 'urgent' by selecting the appropriate choice on the online form. If in doubt whether a concern reaches threshold, a telephone consultation with the Integrated Front Door will be made prior to the form being completed and submitted.

- c. If a child is referred, the DSL/DDSL will ensure that the Headteacher and other relevant staff are informed.
- d. If after consultation with the DSL/DDSL, a member of staff feels that appropriate action is not taken in respect of his or her concerns for the child s/he should refer directly to Integrated Children's Services (Early Help and Social Services). The Headteacher should be informed of this decision.

Further guidance is available at: <https://www.gov.uk/report-child-abuse-to-local-council>

7.2 If a child makes a disclosure to you

If a child discloses a safeguarding issue to you, you should:

- Listen to and believe them. Allow them time to talk freely and do not ask leading questions
- Stay calm and do not show that you are shocked or upset
- Tell the child they have done the right thing in telling you. Do not tell them they should have told you sooner
- Explain what will happen next and that you will have to pass this information on. Do not promise to keep it a secret
- Write up your conversation as soon as possible in the child's own words. Stick to the facts, and do not put your own judgement on it
- Sign and date the write-up and pass it on to the DSL. Alternatively, if appropriate, make a referral to children's social care and/or the police directly (see 7.1), and tell the DSL as soon as possible that you have done so. Aside from these people, do not disclose the information to anyone else unless told to do so by a relevant authority involved in the safeguarding process

You should be aware that children may not feel ready or know how to tell someone that they are being abused, exploited, or neglected, and/or they may not recognise their experiences as harmful. For example, children may feel embarrassed, humiliated, or being threatened. This could be due to their vulnerability, disability and/or sexual orientation or language barriers. This should not prevent you from having a **professional curiosity** and speaking to the DSL if you have concerns about a child.

7.3 If you discover that FGM has taken place or a pupil is at risk of FGM

Keeping Children Safe in Education explains that FGM comprises "all procedures involving partial or total removal of the external female genitalia, or other injury to the female genital organs".

FGM is illegal in the UK and a form of child abuse with long-lasting, harmful consequences. It is also known as 'female genital cutting', 'circumcision' or 'initiation'.

Possible indicators that a pupil has already been subjected to FGM, and factors that suggest a pupil may be at risk, are set out in appendix 4 of this policy.

Any teacher who either:

- Is informed by a girl under 18 that an act of FGM has been carried out on her; or
- Observes physical signs which appear to show that an act of FGM has been carried out on a girl under 18 and they have no reason to believe that the act was necessary for the girl's physical or mental health or for purposes connected with labour or birth

must immediately report this to the police, personally. This is a mandatory statutory duty, and teachers will face disciplinary sanctions for failing to meet it.

Unless they have been specifically told not to disclose, they should also discuss the case with the DSL and involve children's social care as appropriate.

Any other member of staff who discovers that an act of FGM appears to have been carried out on a **pupil under 18** must speak to the DSL and follow our local safeguarding procedures.

The duty for teachers mentioned above does not apply in cases where a pupil is *at risk* of FGM or FGM is suspected but is not known to have been carried out. Staff should not examine pupils.

Any member of staff who suspects a pupil is *at risk* of FGM or suspects that FGM has been carried out or discovers that a pupil **aged 18 or over** appears to have been a victim of FGM must speak to the DSL and follow our local safeguarding procedures.

7.4 If you have concerns about a child (as opposed to believing a child is suffering or likely to suffer from harm, or is in immediate danger)

Figure 1 below, before section 7.7, illustrates the procedure to follow if you have any concerns about a child's welfare.

Where possible, speak to the DSL first to agree a course of action.

If in exceptional circumstances the DSL is not available, this should not delay appropriate action being taken. Speak to a member of the senior leadership team and/or take advice from local authority children's social care. You can also seek advice at any time from the NSPCC helpline on 0808 800 5000. Share details of any actions you take with the DSL as soon as practically possible.

Make a referral to local authority children's social care directly, if appropriate (see 'Referral' below). Share any action taken with the DSL as soon as possible.

Early help

If early help is appropriate, the DSL will generally lead on liaising with other agencies and setting up an inter-agency assessment as appropriate. Staff may be required to support other agencies and professionals in an early help assessment, in some cases acting as the lead practitioner.

The DSL will keep the case under constant review and the school will consider a referral to local authority children's social care if the situation does not seem to be improving. Timelines of interventions will be monitored and reviewed.

Referral

If it is appropriate to refer the case to local authority children's social care or the police, the DSL will make the referral or support you to do so.

If you make a referral directly (see section 7.1), you must tell the DSL as soon as possible.

The local authority will make a decision within 1 working day of a referral about what course of action to take and will let the person who made the referral know the outcome. The DSL or person who made the referral must follow up with the local authority if this information is not made available, and ensure outcomes are properly recorded.

If the child's situation does not seem to be improving after the referral, the DSL or person who made the referral must follow local escalation procedures to ensure their concerns have been addressed and that the child's situation improves.

7.5 If you have concerns about extremism

If a child is not suffering or likely to suffer from harm, or in immediate danger, where possible speak to the DSL first to agree a course of action.

If in exceptional circumstances the DSL is not available, this should not delay appropriate action being taken. Speak to a member of the senior leadership team and/or seek advice from local authority children's social care. Make a referral to local authority children's social care directly, if appropriate (see 'Referral' above). Inform the DSL or deputy as soon as practically possible after the referral.

Where there is a concern, the DSL will consider the level of risk and decide which agency to make a referral to. This could include [Channel](#), the government's programme for identifying and supporting individuals at risk of being drawn into terrorism, or the local authority children's social care team.

The Department for Education also has a dedicated telephone helpline, 020 7340 7264, which school staff and governors can call to raise concerns about extremism with respect to a pupil. You can also email counter.extremism@education.gov.uk. Note that this is not for use in emergency situations.

In an emergency, call 999 or the confidential anti-terrorist hotline on 0800 789 321 if you:

- Think someone is in immediate danger
- Think someone may be planning to travel to join an extremist group
- See or hear something that may be terrorist-related

7.6 If you have a mental health concern

Mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

Staff will be alert to behavioural signs that suggest a child may be experiencing a mental health problem or be at risk of developing one.

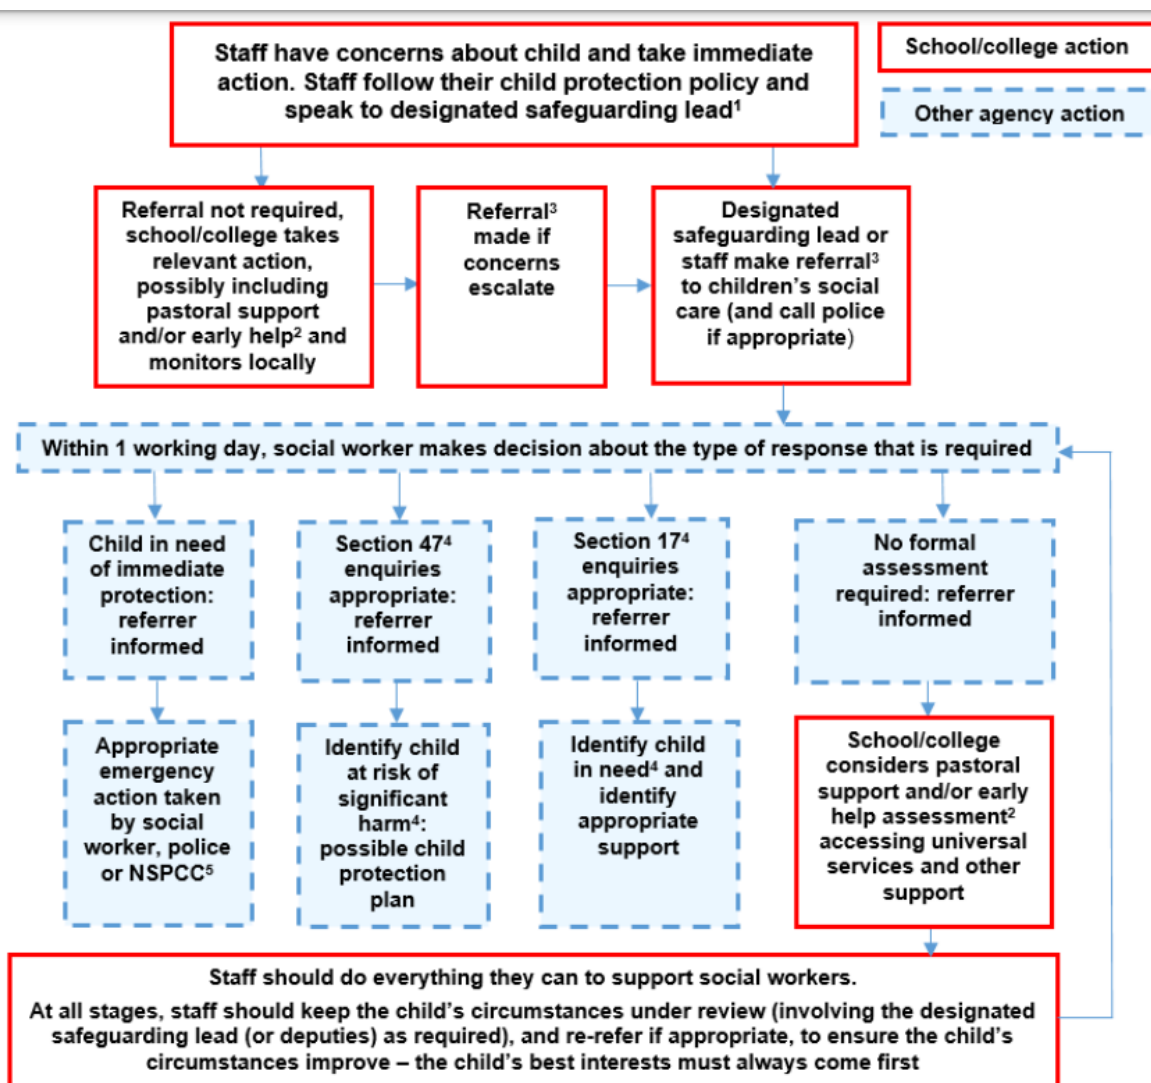

If you have a mental health concern about a child that is also a safeguarding concern, take immediate action by following the steps in section 7.4.

If you have a mental health concern that is **not** also a safeguarding concern, speak to the DSL to agree a course of action.

See the Department for Education guidance on [mental health and behaviour in schools](#) for more information.

Figure 1: procedure if you have concerns about a child’s welfare (as opposed to believing a child is suffering or likely to suffer from harm, or in immediate danger)

(Note – if the DSL is unavailable, this should not delay action. See section 7.4 for what to do.)

7.7 Concerns about a staff member, supply teacher, volunteer or contractor

If you have concerns about a member of staff (including a supply teacher, volunteer or contractor), or an allegation is made about a member of staff (including a supply teacher, volunteer or contractor) posing a risk of harm to children, speak to the headteacher as soon as possible. If the concerns/allegations are about the headteacher, speak to the chair of governors.

The headteacher/chair of governors will then follow the procedures set out in appendix 3, if appropriate.

Where you believe there is a conflict of interest in reporting a concern or allegation about a member of staff (including a supply teacher, volunteer or contractor) to the headteacher, report it directly to the local authority designated officer (LADO).

7.8 Allegations of abuse made against other pupils

We recognise that children are capable of abusing their peers. Abuse will never be tolerated or passed off as “banter”, “just having a laugh” or “part of growing up”, as this can lead to a culture of unacceptable behaviours and an unsafe environment for pupils.

We also recognise the gendered nature of child on child abuse. However, all child on child abuse is unacceptable and will be taken seriously.

Most cases of pupils hurting other pupils will be dealt with under our school's behaviour policy, but this child protection and safeguarding policy will apply to any allegations that raise safeguarding concerns. This might include where the alleged behaviour:

- Is serious, and potentially a criminal offence
- Could put pupils in the school at risk
- Is violent
- Involves pupils being forced to use drugs or alcohol
- Involves sexual exploitation, sexual abuse or sexual harassment, such as indecent exposure, sexual assault, upskirting or sexually inappropriate pictures or videos (including the sharing of nudes and semi-nudes)

See appendix 4 for more information about child on child abuse.

Procedures for dealing with allegations of child on child abuse

If a pupil makes an allegation of abuse against another pupil:

- You must record the allegation and tell the DSL, but do not investigate it
- The DSL will contact the local authority children's social care team and follow its advice, as well as the police if the allegation involves a potential criminal offence
- The DSL will put a risk assessment and support plan into place for all children involved (including the victim(s), the child(ren) against whom the allegation has been made and any others affected) with a named person they can talk to if needed
- The DSL will contact the children and adolescent mental health services (CAMHS), if appropriate

Creating a supportive environment in school and minimising the risk of child on child abuse

We recognise the importance of taking proactive action to minimise the risk of child on child abuse, and of creating a supportive environment where victims feel confident in reporting incidents.

To achieve this, we will:

- Challenge any form of derogatory or sexualised language or inappropriate behaviour between peers, including requesting or sending sexual images
- Be vigilant to issues that particularly affect different genders – for example, sexualised or aggressive touching or grabbing towards female pupils, and initiation or hazing type violence with respect to boys
- Ensure our curriculum helps to educate pupils about appropriate behaviour and consent
- Ensure pupils are able to easily and confidently report abuse using our reporting systems (as described below)
- Ensure staff reassure victims that they are being taken seriously
- Ensure staff are trained to understand:
 - How to recognise the indicators and signs of child on child abuse, and know how to identify it and respond to reports
 - That even if there are no reports of child on child abuse in school, it does not mean it is not happening – staff should maintain an attitude of “it could happen here”
 - That if they have any concerns about a child's welfare, they should act on them immediately rather than wait to be told, and that victims may not always make a direct report. For example:
 - Children can show signs or act in ways they hope adults will notice and react to
 - A friend may make a report
 - A member of staff may overhear a conversation
 - A child's behaviour might indicate that something is wrong
 - That certain children may face additional barriers to telling someone because of their vulnerability, disability, gender, ethnicity and/or sexual orientation
 - That a pupil harming a peer could be a sign that the child is being abused themselves, and that this would fall under the scope of this policy
 - The important role they have to play in preventing peer-on-peer abuse and responding where they believe a child may be at risk from it

- That they should speak to the DSL if they have any concerns

7.9 Sharing of nudes and semi-nudes ('sexting')

[Sharing nudes and semi-nudes: advice for education settings working with children and young people](#)

Your responsibilities when responding to an incident

If you are made aware of an incident involving the consensual or non-consensual sharing of nude or semi-nude images/videos (also known as 'sexting' or 'youth produced sexual imagery'), you must report it to the DSL immediately.

You must **not**:

- View, copy, print, share, store or save the imagery yourself, or ask a pupil to share or download it (if you have already viewed the imagery by accident, you must report this to the DSL)
- Delete the imagery or ask the pupil to delete it
- Ask the pupil(s) who are involved in the incident to disclose information regarding the imagery (this is the DSL's responsibility)
- Share information about the incident with other members of staff, the pupil(s) it involves or their, or other, parents and/or carers
- Say or do anything to blame or shame any young people involved

You should explain that you need to report the incident, and reassure the pupil(s) that they will receive support and help from the DSL.

Initial review meeting

Following a report of an incident, the DSL will hold an initial review meeting with appropriate school staff – this may include the staff member who reported the incident and the safeguarding or leadership team that deals with safeguarding concerns. This meeting will consider the initial evidence and aim to determine:

- Whether there is an immediate risk to pupil(s)
- If a referral needs to be made to the police and/or children's social care
- If it is necessary to view the image(s) in order to safeguard the young person (in most cases, images or videos should not be viewed)
- What further information is required to decide on the best response
- Whether the image(s) has been shared widely and via what services and/or platforms (this may be unknown)
- Whether immediate action should be taken to delete or remove images or videos from devices or online services
- Any relevant facts about the pupils involved which would influence risk assessment
- If there is a need to contact another school, college, setting or individual
- Whether to contact parents or carers of the pupils involved (in most cases parents/carers should be involved)
- The DSL will make an immediate referral to police and/or children's social care if:
 - The incident involves an adult
 - There is reason to believe that a young person has been coerced, blackmailed or groomed, or if there are concerns about their capacity to consent (for example owing to special educational needs)
 - What the DSL knows about the images or videos suggests the content depicts sexual acts which are unusual for the young person's developmental stage, or are violent
 - The imagery involves sexual acts and any pupil in the images or videos is under 13
 - The DSL has reason to believe a pupil is at immediate risk of harm owing to the sharing of nudes and semi-nudes (for example, the young person is presenting as suicidal or self-harming)

If none of the above apply then the DSL, in consultation with the headteacher and other members of staff as appropriate, may decide to respond to the incident without involving the police or children's social care. The decision will be made and recorded in line with the procedures set out in this policy.

Further review by the DSL

If at the initial review stage a decision has been made not to refer to police and/or children's social care, the DSL will conduct a further review to establish the facts and assess the risks.

They will hold interviews with the pupils involved (if appropriate).

If at any point in the process there is a concern that a pupil has been harmed or is at risk of harm, a referral will be made to children's social care and/or the police immediately.

Informing parents/carers

The DSL will inform parents/carers at an early stage and keep them involved in the process, unless there is a good reason to believe that involving them would put the pupil at risk of harm.

Referring to the police

If it is necessary to refer an incident to the police, this will be done by dialling 101.

Recording incidents

All incidents of sharing of nudes and semi-nudes, and the decisions made in responding to them, will be recorded. The record-keeping arrangements set out in section 14 of this policy also apply to recording these incidents.

Curriculum coverage

Pupils are taught about the issues surrounding the sharing of nudes and semi-nudes as part of our PSHE and computing lessons. Teaching covers the following in relation to the sharing of nudes and semi-nudes:

- What it is
- How it is most likely to be encountered
- The consequences of requesting, forwarding or providing such images, including when it is and is not abusive and when it may be deemed as online sexual harassment
- Issues of legality
- The risk of damage to people's feelings and reputation

Pupils also learn the strategies and skills needed to manage:

- Specific requests or pressure to provide (or forward) such images
- The receipt of such images

7.10 Reporting systems for our pupils

Where there is a safeguarding concern, we will take the child's wishes and feelings into account when determining what action to take and what services to provide.

We recognise the importance of ensuring pupils feel safe and comfortable to come forward and report any concerns and/or allegations.

To achieve this, we will:

- Put systems in place for pupils to confidently report abuse
- Ensure our reporting systems are well promoted, easily understood and easily accessible for pupils
- Make it clear to pupils that their concerns will be taken seriously, and that they can safely express their views and give feedback
- Pupils are told to report their concerns to their mentor, Year Leader (or Deputy Year Leader), the pastoral support team, the DSL (or deputy DSLs), the senior leadership team or any other member of staff.
- Pupils are made aware of the importance of reporting concerns and/or allegations through mentoring sessions, PSHE lessons and assemblies
- Pupils will be made to feel safe when submitting concerns

8. Online safety and the use of mobile technology

We recognise the importance of safeguarding children from potentially harmful and inappropriate online material, and we understand that technology is a significant component in many safeguarding and wellbeing issues.

To address this, our school aims to:

- Have robust processes in place to ensure the online safety of pupils, staff, volunteers and governors
- Protect and educate the whole school community in its safe and responsible use of technology, including mobile and smart technology (which we refer to as 'mobile phones')
- Set clear guidelines for the use of mobile phones for the whole school community
- Establish clear mechanisms to identify, intervene in and escalate any incidents or concerns, where appropriate

The 4 key categories of risk

Our approach to online safety is based on addressing the following categories of risk:

Content: being exposed to illegal, inappropriate, or harmful content, for example: pornography, fake news, racism, misogyny, self-harm, suicide, anti-Semitism, radicalisation, and extremism

Contact: being subjected to harmful online interaction with other users; for example: peer to peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes

Conduct: online behaviour that increases the likelihood of, or causes, harm; for example, making, sending and receiving explicit images (e.g. consensual and nonconsensual sharing of nudes and semi-nudes and/or pornography, sharing other explicit images and online bullying)

Commerce: risks such as online gambling, inappropriate advertising, phishing and or financial scams. If you feel your pupils, students or staff are at risk, please report it to the Anti-Phishing Working Group (<https://apwg.org/>).

To meet our aims and address the risks above we will:

- Educate pupils about online safety as part of our curriculum. For example:
 - The safe use of social media, the internet and technology
 - Keeping personal information private
 - How to recognise unacceptable behaviour online
 - How to report any incidents of cyber-bullying, ensuring pupils are encouraged to do so, including where they are a witness rather than a victim
- Train staff on safe internet use and online safeguarding issues including cyber-bullying and the risks of online radicalisation.
- Educate parents/carers about online safety via our website, communications sent directly to them and during parents' evenings. We will also share clear procedures with them so they know how to raise concerns about online safety
- Make sure staff are aware of any restrictions placed on them with regards to the use of their mobile phone and cameras, for example that:
 - Staff are allowed to bring their personal phones to school for their own use, but will limit such use to non-contact time when pupils are not present
 - Staff will not take pictures or recordings of pupils on their personal phones or cameras
- Make all pupils, parents/carers and staff aware that they are expected to sign an agreement regarding the acceptable use of the internet in school, use of the school's ICT systems and use of their mobile and smart technology
- Make sure all staff, pupils and parents/carers are aware that staff have the power to search pupils' phones, as set out in the [DfE's guidance on searching, screening and confiscation](#)
- Put in place robust filtering and monitoring systems to limit children's exposure to the 4 key categories of risk (described above) from the school's IT systems

9. Notifying parents or carers

Where appropriate, we will discuss any concerns about a child with the child's parents or carers. The DSL will normally do this in the event of a suspicion or disclosure.

Other staff will only talk to parents or carers about any such concerns following consultation with the DSL.

If we believe that notifying the parents or carers would increase the risk to the child, we will discuss this with the local authority children's social care team before doing so.

In the case of allegations of abuse made against other children, we will normally notify the parents or carers of all the children involved.

10 Children potentially at greater risk of harm:

Whilst all children should be protected, it is important that governing bodies and proprietors recognise (and reflect in their policies and procedures) that some groups of children, are potentially at greater risk of harm than others. The list below, is not exhaustive, but highlights some of those groups:

10. Pupils with special educational needs, disabilities or health issues

Children with special educational needs or disabilities (SEND) or certain medical or physical health conditions can face additional safeguarding challenges both online and offline. Governing bodies and proprietors should ensure their child protection policy reflects the fact that additional barriers can exist when recognising abuse and neglect in this group of children. These can include:

- assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's condition without further exploration
- these children being more prone to peer group isolation or bullying (including prejudice-based bullying) than other children
- the potential for children with SEND or certain medical conditions being disproportionately impacted by behaviours such as bullying, without outwardly showing any signs
- communication barriers and difficulties in managing or reporting these challenges.
- cognitive understanding – being unable to understand the difference between fact and fiction in online content and then repeating the content/behaviours in schools or colleges or the consequences of doing so.

We offer extra pastoral support for these pupils. This includes intervention and support from the SENCO and SEN department and, when appropriate, involvement of external agencies.

11. Pupils with a social worker

Children may need a social worker due to safeguarding or welfare needs. Children may need this help due to abuse and/or neglect and/or complex family circumstances. A child's experiences of adversity and trauma can leave them vulnerable to further harm, as well as educationally disadvantaged in facing barriers to attendance, learning, behaviour, and mental health

Local authorities should share the fact a child has a social worker, and the designated safeguarding lead should hold and use this information so that decisions can be made in the best interests of the child's safety, welfare and educational outcomes. This should be considered as a matter of routine. There are clear powers to share this information under existing duties on both local authorities and schools and colleges to safeguard and promote the welfare of children

Where children need a social worker, this should inform decisions about safeguarding (for example, responding to unauthorised absence or to a child missing education where there are known safeguarding

risks) and about promoting welfare (for example, considering the provision of pastoral and/or academic support, alongside action by statutory services).

12. Looked-after and previously looked-after children

The most common reason for children becoming looked after is as a result of abuse and/or neglect. Governing bodies and proprietors should ensure that staff have the skills, knowledge and understanding to keep looked after children safe. DCGS has a designated LAC coordinator, Rachel Richards.

The school should ensure that appropriate staff have access to the information they need in relation to a child's looked after legal status (whether they are looked after under voluntary arrangements with consent of parents, or on an interim or full care order) and the child's contact arrangements with birth parents or those with parental responsibility. They should also have information about the child's care arrangements and the levels of authority delegated to the carer by the authority looking after him/her.

The designated safeguarding lead should have details of the child's social worker and the name of the virtual school head in the authority that looks after the child#

A previously looked after child potentially remains vulnerable and all staff should have the skills, knowledge and understanding to keep previously looked after children safe. When dealing with looked after children and previously looked after children, it is important that all agencies work together and prompt action is taken when necessary to safeguard these children, who are a particularly vulnerable group.

As part of their role, the designated teacher will act in accordance with:

<https://www.gov.uk/government/publications/designated-teacher-for-looked-after-children>

13 Children missing from education:

Children missing from education, particularly persistently, can act as a vital warning sign to a range of safeguarding issues including neglect, child sexual and child criminal exploitation- particularly county lines. It is important the school's response to children missing from education supports identifying such abuse and helps prevent the risk of them going missing in the future. This includes when problems are first emerging but also where children are already known to local authority children's social care and need a social worker (such as a child who is a child in need or who has a child protection plan, or is a looked after child), where going missing from education may increase known safeguarding risks within the family or in the community.

14 Elective Home Education (EHE)

Many home educated children have an overwhelmingly positive learning experience. We would expect the parents' decision to home educate to be made with their child's best education at the heart of the decision. However, this is not the case for all, and home education can mean some children are less visible to the services that are there to keep them safe and supported in line with their needs.

From September 2016 the Education (Pupil Registration) (England) Regulations 2006 were amended so that schools must inform their LA of all deletions from their admission register when a child is taken off roll.

Where a parent/carer has expressed their intention to remove a child from school with a view to educating at home, LAs, schools, and other key professionals should work together to coordinate a meeting with parents/carers where possible. Ideally, this would be before a final decision has been made, to ensure the parents/carers have considered what is in the best interests of each child. This is particularly important where a child has special educational needs or a disability, and/or has a social worker, and/or is otherwise vulnerable.

15 Children requiring mental health support

Schools and colleges have an important role to play in supporting the mental health and wellbeing of their pupils. This requirement does not apply where a pupil's name is deleted after they have completed the final year at the school (e.g. Year 6 at a typical primary school) unless the local authority has asked to be informed about such deletions.

Mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. Governing bodies and proprietors should ensure they have clear systems and processes in place for identifying possible mental health problems, including routes to escalate and clear referral and accountability systems.

16 Children who are lesbian, gay, bi, or trans (LGBT)

The fact that a child or a young person may be LGBT is not in itself an inherent risk factor for harm. However, children who are LGBT can be targeted by other children. In some cases, a child who is perceived by other children to be LGBT (whether they are or not) can be just as vulnerable as children who identify as LGBT.

Risks can be compounded where children who are LGBT lack a trusted adult with whom they can be open. It is therefore vital that staff endeavour to reduce the additional barriers faced, and provide a safe space for them to speak out or share their concerns with members of staff.

13. Complaints and concerns about school safeguarding policies

13.1 Complaints against staff

Complaints against staff that are likely to require a child protection investigation will be handled in accordance with our procedures for dealing with allegations of abuse made against staff (see appendix 3).

13.3 Whistle-blowing

Concerns about the school's safeguarding process or practice should be raised through the school's whistleblowing procedures (see the whistleblowing policy for full details).

14. Record-keeping

We will hold records in line with our records retention schedule.

All safeguarding concerns, discussions, decisions made and the reasons for those decisions, must be recorded in writing. If you are in any doubt about whether to record something, discuss it with the DSL.

Records will include:

- A clear and comprehensive summary of the concern
- Details of how the concern was followed up and resolved
- A note of any action taken, decisions reached and the outcome

Concerns and referrals will be kept in a separate child protection file for each child.

Any non-confidential records will be readily accessible and available. Confidential information and records will be held securely and only available to those who have a right or professional need to see them.

Safeguarding records relating to individual children will be retained for a reasonable period of time after they have left the school.

Safeguarding records which contain information about allegations of sexual abuse will be retained for the Independent Inquiry into Child Sexual Abuse (IICSA), for the term of the inquiry.

If a child for whom the school has, or has had, safeguarding concerns moves to another school, the DSL will ensure that their child protection file is forwarded promptly and securely, and separately from the main pupil file. In addition, if the concerns are significant or complex, and/or social services are involved, the DSL will speak to the DSL of the receiving school and provide information to enable them to have time to make any necessary preparations to ensure the safety of the child.

In addition:

- Appendix 2 sets out our policy on record-keeping specifically with respect to recruitment and pre-appointment checks
- Appendix 3 sets out our policy on record-keeping with respect to allegations of abuse made against staff

15. Training

15.1 All staff

All staff members will undertake safeguarding and child protection training at induction to ensure they understand the school's safeguarding systems and their responsibilities, and can identify signs of possible abuse or neglect.

This training will be regularly updated and will:

- Be integrated, aligned and considered as part of the whole-school safeguarding approach and wider staff training, and curriculum planning
- Be in line with advice from the 3 safeguarding partners
- Have regard to the Teachers' Standards to support the expectation that all teachers:
 - Manage behaviour effectively to ensure a good and safe environment
 - Have a clear understanding of the needs of all pupils

All staff will have training on the government's anti-radicalisation strategy, Prevent, to enable them to identify children at risk of being drawn into terrorism and to challenge extremist ideas.

Staff will also receive regular safeguarding and child protection updates, including on online safety, as required but at least annually (for example, through emails, newsletters and staff meetings/briefings).

Volunteers will receive appropriate training, if applicable.

15.2 The DSL and deputies

The DSL and deputies will undertake child protection and safeguarding training at least every 2 years.

In addition, they will update their knowledge and skills at regular intervals and at least annually (for example, through e-bulletins, meeting other DSLs, or taking time to read and digest safeguarding developments).

They will also undertake Prevent awareness training.

15.3 Governors

All governors receive training about safeguarding, to make sure they have the knowledge and information needed to perform their functions and understand their responsibilities.

As the chair of governors may be required to act as the 'case manager' in the event that an allegation of abuse is made against the headteacher, they receive training in managing allegations for this purpose.

15.4 Recruitment – interview panels

At least one person conducting any interview for any post at the school will have undertaken safer recruitment training. This will cover, as a minimum, the contents of Keeping Children Safe in Education, and will be in line with local safeguarding procedures.

See appendix 2 of this policy for more information about our safer recruitment procedures.

16. Monitoring arrangements

This policy will be reviewed **annually** by the DSL. At every review, it will be approved by the full governing board.

17. Links with other policies

This policy links to the following policies and procedures:

- Behaviour
- Staff code of conduct
- Complaints

- Health and safety
- Attendance
- Equality
- Relationships and sex education
- First aid
- Curriculum
- Privacy notices
- Whistleblowing
- IT Acceptable Use

These appendices are based on the Department for Education's statutory guidance, **Keeping Children Safe in Education 2022**

Appendix 1: types of abuse

Abuse: a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Harm can include ill treatment that is not physical as well as the impact of witnessing ill treatment of others. This can be particularly relevant, for example, in relation to the impact on children of all forms of domestic abuse. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. Children may be abused by an adult or adults or by another child or children

Physical abuse: a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child

Emotional abuse: the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning or preventing the child from participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone

Sexual abuse: involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing, and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse. Sexual abuse can take place online, and technology can be used to facilitate offline abuse. Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children. The sexual abuse of children by other children is a specific safeguarding issue in education and all staff should be aware of it and of their school or college's policy and procedures for dealing with it

Neglect: the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy, for example, as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate care-givers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs

Appendix 2: safer recruitment and DBS checks – policy and procedures

Recruitment and selection process

To make sure we recruit suitable people, we will ensure that those involved in the recruitment and employment of staff to work with children have received appropriate safer recruitment training.

We have put the following steps in place during our recruitment and selection process to ensure we are committed to safeguarding and promoting the welfare of children.

Advertising

When advertising roles, we will make clear:

- the school's or college's commitment to safeguarding and promoting the welfare of children and make clear that safeguarding checks will be undertaken
- the safeguarding responsibilities of the post as per the job description and personal specification
- whether the post is exempt from the Rehabilitation of Offenders Act (ROA) 1974. The amendments to the ROA 1974 (Exceptions Order 1975, (2013 and 2020)) provide that when applying for certain jobs and activities, certain spent convictions and cautions are 'protected', so they do not need to be disclosed to employers, and if they are disclosed, employers cannot take them into account. The MOJ's guidance on the Rehabilitation of Offenders Act 1974 and the Exceptions Order 1975, provides information about which convictions must be declared during job applications and related exceptions and further information about filtering offences can be found in the DBS filtering guide.

Application forms

Our application pack will:

- Include a statement saying that it is an offence to apply for the role if an applicant is barred from engaging in regulated activity relevant to children (where the role involves this type of regulated activity)
- Include a copy of, or link to, our child protection and safeguarding policy

Shortlisting

Our shortlisting process will involve at least 2 people and will:

- Consider any inconsistencies and look for gaps in employment and reasons given for them
- Explore all potential concerns
- In addition, as part of the shortlisting process we will carry out an online search as part of their due diligence on the shortlisted candidates. This may help identify any incidents or issues that have happened, and are publicly available online, which the school or college might want to explore with the applicant at interview.

Once we have shortlisted candidates, we will ask shortlisted candidates to:

- complete a self-declaration of their criminal record or information that would make them unsuitable to work with children. Self-declaration is subject to Ministry of Justice guidance on the disclosure of criminal records, further information can be found on GOV.UK
- For example:
 - if they have a criminal history
 - if they are included on the children's barred list
 - if they are prohibited from teaching
 - if they are prohibited from taking part in the management of an independent school
- information about any criminal offences committed in any country in line with the law as applicable in England and Wales, not the law in their country of origin or where they were convicted
- if they are known to the police and children's local authority social care
- if they have been disqualified from providing childcare (see paras 262-266)

- any relevant overseas information.
- Sign a declaration confirming the information they have provided is true. Where there is an electronic signature, the shortlisted candidate should physically sign a hard copy of the application at point of interview.

Seeking references and checking employment history

We will obtain references before interview. Any concerns raised will be explored further with referees and taken up with the candidate at interview.

Schools and colleges should:

- not accept open references e.g. to whom it may concern
- not rely on applicants to obtain their reference
- ensure any references are from the candidate's current employer and have been completed by a senior person with appropriate authority (if the referee is school or college based, the reference should be confirmed by the headteacher/principal as accurate in respect of any disciplinary investigations)
- obtain verification of the individual's most recent relevant period of employment where the applicant is not currently employed
- secure a reference from the relevant employer from the last time the applicant worked with children (if not currently working with children), if the applicant has never worked with children, then ensure a reference from their current employer
- always verify any information with the person who provided the reference
- ensure electronic references originate from a legitimate source
- contact referees to clarify content where information is vague or insufficient information is provided
- compare the information on the application form with that in the reference and take up any discrepancies with the candidate
- establish the reason for the candidate leaving their current or most recent post
- ensure any concerns are resolved satisfactorily before appointment is confirmed.

NB:

When asked to provide references, schools and colleges should ensure the information confirms whether they are satisfied with the applicant's suitability to work with children, and provide the facts (not opinions) of any substantiated safeguarding concerns/allegations that meet the harm threshold. They should not include information about concerns/allegations which are unsubstantiated, unfounded, false, or malicious.

Interview and selection

When interviewing candidates, we will:

- finding out what attracted the candidate to the post being applied for and their motivation for working with children
- exploring their skills and asking for examples of experience of working with children which are relevant to the role
- probe any gaps in employment or where the candidate has changed employment or location frequently, asking about the reasons for this.
- The interviews should be used to explore potential areas of concern and to determine the applicant's suitability to work with children. Areas that may be concerning and lead to further probing include:
 - implication that adults and children are equal
 - lack of recognition and/or understanding of the vulnerability of children
 - inappropriate idealisation of children
 - inadequate understanding of appropriate boundaries between adults and children
 - indicators of negative safeguarding behaviours

Any information about past disciplinary action or allegations should be considered in the circumstances of the individual case.

Pupils/students should be involved in the recruitment process in a meaningful way.

Observing short listed candidates and appropriately supervised interaction with pupils/students is common and recognised as good practice

All information considered in decision making should be clearly recorded along with decisions made.

Pre-appointment vetting checks

We will record all information on the checks carried out in the school's single central record (SCR). Copies of these checks, where appropriate, will be held in individuals' personnel files. We follow requirements and best practice in retaining copies of these checks, as set out below.

New staff

All offers of appointment will be conditional until satisfactory completion of the necessary pre-employment checks. When appointing new staff, we will:

- verify a candidate's identity, it is important to be sure that the person is who they claim to be, this includes being aware of the potential for individuals changing their name. Best practice is checking the name on their birth certificate, where this is available. Further identification checking guidelines can be found on the GOV.UK website
- obtain (via the applicant) an enhanced DBS check (including children's barred list information, for those who will be engaging in regulated activity with children).(We will not keep a copy of the certificate for longer than 6 months, but when the copy is destroyed we may still keep a record of the fact that vetting took place, the result of the check and recruitment decision taken)
- Obtain a separate barred list check if they will start work in regulated activity before the DBS certificate is available
- Verify the candidate's mental and physical fitness to carry out their work responsibilities. A job applicant can be asked relevant questions about disability and health in order to establish whether they have the physical and mental capacity for the specific role
- Verify the person's right to work in the UK, including EU nationals. If there is uncertainty about whether an individual needs permission to work in the UK, then we will follow advice on the GOV.UK website. If the person has lived or worked outside the UK, make any further checks the school or college consider appropriate. We will keep a copy of this verification for the duration of the member of staff's employment and for 2 years afterwards
- Verify professional qualifications, as appropriate. The Teaching Regulation Agency's (TRA) Employer Access Service should be used to verify any award of qualified teacher status (QTS), and the completion of teacher induction or probation
- Ensure they are not subject to a prohibition order if they are employed to be a teacher or other classroom staff

In addition:

- independent schools, including academies and free schools, must check that a person taking up a management position* as described at paragraph 255 is not subject to a section 128 direction made by the Secretary of State
- all schools must ensure that an applicant to be employed to carry out teaching work is not subject to a prohibition order issued by the Secretary of State for prohibition checks or any sanction or restriction imposed (that remains current) by the GTCE, before its abolition in March 2012
- before employing a person to carry out teaching work in relation to children, colleges **must** take reasonable steps to establish whether that person is subject to a prohibition order issued by the Secretary of State

* Management positions are most likely to include, but are not limited to, headteachers, principals and deputy/assistant headteachers.

Applicant moving from previous post

There is no requirement for a school to obtain an enhanced DBS certificate or carry out checks for events that may have occurred outside the UK if, during a period which ended not more than three months before the person's appointment, the applicant has worked, in a school in England, in a post:

- which brought the person regularly into contact with children, or
- to which the person was appointed on or after 12th May 2006 and which did not bring the person regularly into contact with children or young persons, or
- in another institution within the further education sector in England, or in a 16-19 academy, in a post which involved the provision of education which brought the person regularly into contact with children or young persons.

Whilst there is no requirement to carry out an enhanced DBS check in the circumstances described above, we will carefully consider if it would be appropriate to request one, to ensure they have up to date information. We must still carry out all other relevant pre-appointment checks including where the individual is engaging in regulated activity with children, a separate children's barred list check.

Regulated activity means a person who will be:

- responsible, on a regular basis in a school or college, for teaching, training instructing, caring for or supervising children
- will be working on a regular basis in a specified establishment, such as a school, or in connection with the purposes of the establishment, where the work gives opportunity for contact with children, or
- engage in intimate or personal care or healthcare or any overnight activity, even if this happens only once.

Note on regulated activity:

Regulated activity: The full legal definition of regulated activity is set out in Schedule 4 of the Safeguarding Vulnerable Groups Act 2006 as amended by the Protection of Freedoms Act 2012.

Regulated activity includes:

- teaching, training, instructing, caring for (see (c) below) or supervising children if the person is unsupervised, or providing advice or guidance on physical, emotional or educational well-being, or driving a vehicle only for children;
- work for a limited range of establishments (known as 'specified places', which include schools and colleges), with the opportunity for contact with children, but not including work done by supervised volunteers. Work under (a) or (b) is regulated activity only if done regularly
Some activities are always regulated activities, regardless of frequency or whether they are supervised or not.

This includes:

- relevant personal care, or health care provided by or provided under the supervision of a health care professional:
 - personal care includes helping a child with eating and drinking for reasons of illness or disability or in connection with toileting, washing, bathing and dressing for reasons of age, illness or disability
 - health care means care for children provided by, or under the direction or supervision of, a regulated health care professional.

Regulated activity will not be:

- paid work in specified places which is occasional and temporary and does not involve teaching, training; and
- supervised activity which is paid in non-specified settings such as youth clubs, sports clubs etc

Recording information: Single central record

We must maintain a single central record of pre-appointment checks, referred to in the Regulations 84 as “the register” and more commonly known as “the single central record”.

The single central record must cover the following people: • for schools:

- all staff, including teacher trainees on salaried routes, agency and third-party supply staff, even if they work for one day
- In the case of academies and free schools, this means the members and trustees of the academy trust

The minimum information that must be recorded in respect of staff members (including teacher trainees on salaried routes) is set out below:

For agency and third party supply staff, schools and colleges must include whether written confirmation has been received that the employment business supplying the member of supply staff has carried out the relevant checks and obtained the appropriate certificates, the date this confirmation was received and whether details of any enhanced DBS certificate have been provided in respect of the member of staff.

The single central record must indicate whether the following checks have been carried out or certificates obtained, and the date on which each check was completed or certificate obtained:

- an identity check, (identification checking guidelines can be found on the GOV.UK website)
- a standalone children’s barred list check
 - an enhanced DBS check (with children’s barred list check) requested/certificate provided
 - a prohibition from teaching check
- further checks on people who have lived or worked outside the UK
- a check of professional qualifications, where required, and,
- a check to establish the person’s right to work in the United Kingdom

The details of an individual should be removed from the single central record once they no longer work at the school or college.

Non statutory information. We are free to record any other information we deem relevant.

For example:

- whether relevant staff have been informed of their duty to disclose relevant information under the childcare disqualification arrangements
- checks made on volunteers
- checks made on governors
- dates on which safeguarding and safer recruitment training was undertaken, and
- the name of the person who carried out each check.

The single central record can be kept in paper or electronic form

Existing staff

There are limited circumstances where schools and colleges will need to carry out new checks on existing staff. These are when:

- an individual working at the school or college moves from a post that was not regulated activity with children into work which is considered to be regulated activity with children. In such circumstances, the relevant checks for that regulated activity must be carried out
- there has been a break in service of 12 weeks or more, or
- there are concerns about an individual’s suitability to work with children

We will refer to the DBS anyone who has harmed, or poses a risk of harm, to a child or vulnerable adult where:

- We believe the individual has engaged in [relevant conduct](#); or

- We believe the individual has received a caution or conviction for a relevant (automatic barring either with or without the right to make representations) offence, under the [Safeguarding Vulnerable Groups Act 2006 \(Prescribed Criteria and Miscellaneous Provisions\) Regulations 2009](#); or
- We believe the 'harm test' is satisfied in respect of the individual (i.e. they may harm a child or vulnerable adult or put them at risk of harm); and
- The individual has been removed from working in regulated activity (paid or unpaid) or would have been removed if they had not left

Agency and third-party staff

We will obtain written notification from any agency, or third party organisation, that they have carried out the checks on an individual who will be working at the school or college that the school or college would otherwise perform

In respect of the enhanced DBS check, we must ensure that written notification confirms the certificate has been obtained by either the employment business or another such business

Where the agency or organisation has obtained an enhanced DBS certificate before the person is due to begin work at the school which has disclosed any matter or information, or any information was provided to the employment business, the school must obtain a copy of the certificate from the agency

Where the position requires a children's barred list check, this must be obtained by the agency or third party by obtaining an enhanced DBS certificate with children's barred list information, prior to appointing the individual

The school will check that the person presenting themselves for work is the same person on whom the checks have been made.

Contractors

Where we use contractors to provide services, we should set out our safeguarding requirements in the contract between the organisation and the school

We should ensure that any contractor, or any employee of the contractor, who is to work at the school or college, has been subject to the appropriate level of DBS check. Contractors engaging in regulated activity relating to children will require an enhanced DBS check (including children's barred list information)

For all other contractors who are not engaging in regulated activity relating to children, but whose work provides them with an opportunity for regular contact with children, an enhanced DBS check (not including children's barred list information) will be required

In considering whether the contact is regular, it is irrelevant whether the contractor works on a single site or across several sites. In cases where the contractor does not have opportunity for regular contact with children, schools and colleges should decide on whether a basic DBS disclosure would be appropriate.

Under no circumstances should a contractor on whom no checks have been obtained be allowed to work unsupervised or engage in regulated activity relating to children. We are responsible for determining the appropriate level of supervision depending on the circumstances

If an individual working at a school or college is self-employed, we should consider obtaining the DBS check, as self-employed people are not able to make an application directly to the DBS on their own account

We should always check the identity of contractors on arrival at the school or college.

We will not keep copies of such checks for longer than 6 months.

Contractors who have not had any checks will not be allowed to work unsupervised or engage in regulated activity under any circumstances.

We will check the identity of all contractors and their staff on arrival at the school.

Trainee/student teachers

Where applicants for initial teacher training are salaried by the school it will only be possible to obtain an enhanced DBS certificate for contractors in colleges which are exclusively or mainly for the provision of full-time education to children

The school must ensure that all necessary checks are carried out. If these trainee teachers are engaging in regulated activity relating to children (which in most cases by the nature of the work, they will be), an enhanced DBS check (including children's barred list information) must be obtained

Where trainee teachers are fee-funded, it is the responsibility of the initial teacher training provider to carry out the necessary checks.

We should obtain written confirmation from the provider that it has carried out all pre-appointment checks that we would otherwise be required to perform, and that the trainee has been judged by the provider to be suitable to work with children

There is no requirement for the school or college to record details of fee-funded trainees on the single central record. However, we may wish to record this information under non statutory information

Visitors:

We have different types of visitors, those with a professional role i.e. educational psychologists, social workers etc. those connected with the building, grounds maintenance, children's relatives or other visitors attending an activity in school such as a sports day.

We should not request DBS checks or barred list checks, or ask to see existing DBS certificates, for visitors such as children's relatives or other visitors attending a sports day

Headteachers and principals should use their professional judgement about the need to escort or supervise such visitors

For visitors who are there in a professional capacity check ID and be assured that the visitor has had the appropriate DBS check (or the visitor's employers have confirmed that their staff have appropriate checks. We should not ask to see the certificate in these circumstances)

Whilst external organisations can provide a varied and useful range of information, resources and speakers that can help schools and colleges enrich children's education, careful consideration should be given to the suitability of any external organisations

We should set out the arrangements for individuals coming onto their premises, which may include an assessment of the education value, the age appropriateness of what is going to be delivered and whether relevant checks will be required.

Volunteers

- Under no circumstances should a volunteer on whom no checks have been obtained be left unsupervised or allowed to work in regulated activity
- Whilst volunteers play an important role and are often seen by children as being safe and trustworthy adults, the nature of voluntary roles varies, we should undertake a written risk assessment and use our professional judgement and experience when deciding what checks, if any, are required
- The risk assessment should consider:
 - the nature of the work with children, especially if it will constitute regulated activity, including the level of supervision
 - what the establishment knows about the volunteer, including formal or informal information offered by staff, parents and other volunteers
 - whether the volunteer has other employment or undertakes voluntary activities where referees can advise on their suitability, and
 - whether the role is eligible for a DBS check, and if it is, the level of the check, for volunteer roles that are not in regulated activity.
- Details of the risk assessment should be recorded
- We should obtain an enhanced DBS check (which should include children's barred list information) for all volunteers who are new to working in regulated activity with children, i.e. where they are unsupervised and teach or look after children regularly or provide personal care on a one-off basis in school

- It is for us to determine whether a volunteer is considered to be supervised. Where an individual is supervised, to help determine the appropriate level of supervision, we must have regard to the statutory guidance issued by the Secretary of State
- For a person to be considered supervised, the supervision must be:
 - by a person who is in regulated activity relating to children
 - regular and day to day, and
 - reasonable in all the circumstances to ensure the protection of children

Existing volunteers:

Volunteers do not have to be re-checked if they have already had a DBS check (which should include children's barred list information if engaging in regulated activity). However, if we have any concerns they should consider obtaining a new DBS check- at the level appropriate to the volunteering role.

Proprietors of independent schools, including academies and free schools and proprietors of alternative provision academies:

Before an individual becomes either the proprietor of an independent school or the chair of a body of people which is the proprietor of an independent school, the Secretary of State will:

- carry out an enhanced DBS check; and where such a check is made, obtain an enhanced DBS certificate (either including or not including children's barred list information as appropriate)
- confirm the individual's identity, and
- if the individual lives or has lived outside of the UK, where applying for an enhanced check is insufficient, such other checks as the Secretary of State considers appropriate.

Where the proprietor is a body of people (including a governing body in an academy or free school), the chair **must** ensure that enhanced DBS checks are undertaken, for the other members of the body, and that where such a check has been undertaken, an enhanced DBS certificate is obtained, and the chair must ensure that identity checks are completed before, or as soon as practicable after, any individual takes up their position.

The chair must also ensure that other members are not subject to a section 128 direction that would prevent them from taking part in the management of an independent school (including academies and free schools).

Further checks, as the chair considers appropriate, should be undertaken where, by reason of the individual's living or having lived overseas, obtaining an enhanced DBS check is not sufficient to establish an individual's suitability to work in a school

In the case of an academy trust, including those established to operate a free school, the trust must require enhanced DBS checks on all members of the academy trust, individual charity trustees, and the chair of the board of charity trustees

Academy trusts, including those established to run a free school, have the same responsibilities as all independent schools in relation to requesting enhanced DBS checks for permanent and supply staff

Where an academy trust delegates responsibilities to any delegate or committee (including a local governing body), the trust must require an enhanced DBS check on all delegates and all members of such committees. 113 Academy trusts must also check that members are not disqualified from taking part in the management of the school as a result of a section 128 direction.

Staff working in alternative provision settings

Where we place a pupil with an alternative provision provider, the school continues to be responsible for the safeguarding of that pupil and should be satisfied that the provider meets the needs of the pupil

We should obtain written confirmation from the alternative provision provider that appropriate safeguarding checks have been carried out on individuals working at the establishment, i.e. those checks that the school would otherwise perform in respect of its own staff

Adults who supervise pupils on work experience

Adults who supervise children on work experience

When organising work experience placements we should ensure that the placement provider has policies and procedures in place to protect children from harm.

Children's barred list checks via the DBS might be required on some people who supervise a child under the age of 16 on a work experience placement.

We should consider the specific circumstances of the work experience. Consideration must be given in particular to the nature of the supervision and the frequency of the activity being supervised, to determine what, if any, checks are necessary

These considerations would include whether the person providing the teaching/training/instruction/supervision to the child on work experience will be:

- unsupervised themselves, and
- providing the teaching/training/instruction frequently (more than three days in a 30 day period, or overnight)

If the person working with the child is unsupervised and the same person is in frequent contact with the child, the work is likely to be regulated activity relating to children. If so, the school or college could ask the employer providing the work experience to ensure that the person providing the instruction or training is not a barred person

Schools and colleges are not able to request that an employer obtains an enhanced DBS check with children's barred list information for staff supervising children aged 16 to 17 on work experience

If the activity undertaken by the child on work experience takes place in a 'specified place', such as a school or sixth form college, and gives the opportunity for contact with children, this may itself be considered to be regulated activity relating to children. In these cases, and where the child doing the work experience is 16 years of age or over, the work experience provider e.g. school or sixth form college should consider whether a DBS enhanced check should be requested for the child in question.

DBS checks cannot be requested for children under the age of 16

Children staying with host families (homestay)

Schools and colleges quite often make arrangements for their children receiving education at their institution to have learning experiences where, for short periods, the children may be provided with care and accommodation by a host family to whom they are not related. This might happen, for example, as part of a foreign exchange visit or sports tour, often described as 'homestay' arrangements

In some circumstances the arrangement where children stay with UK families could amount to "private fostering" under the Children Act 1989.

Private fostering - LA notification when identified

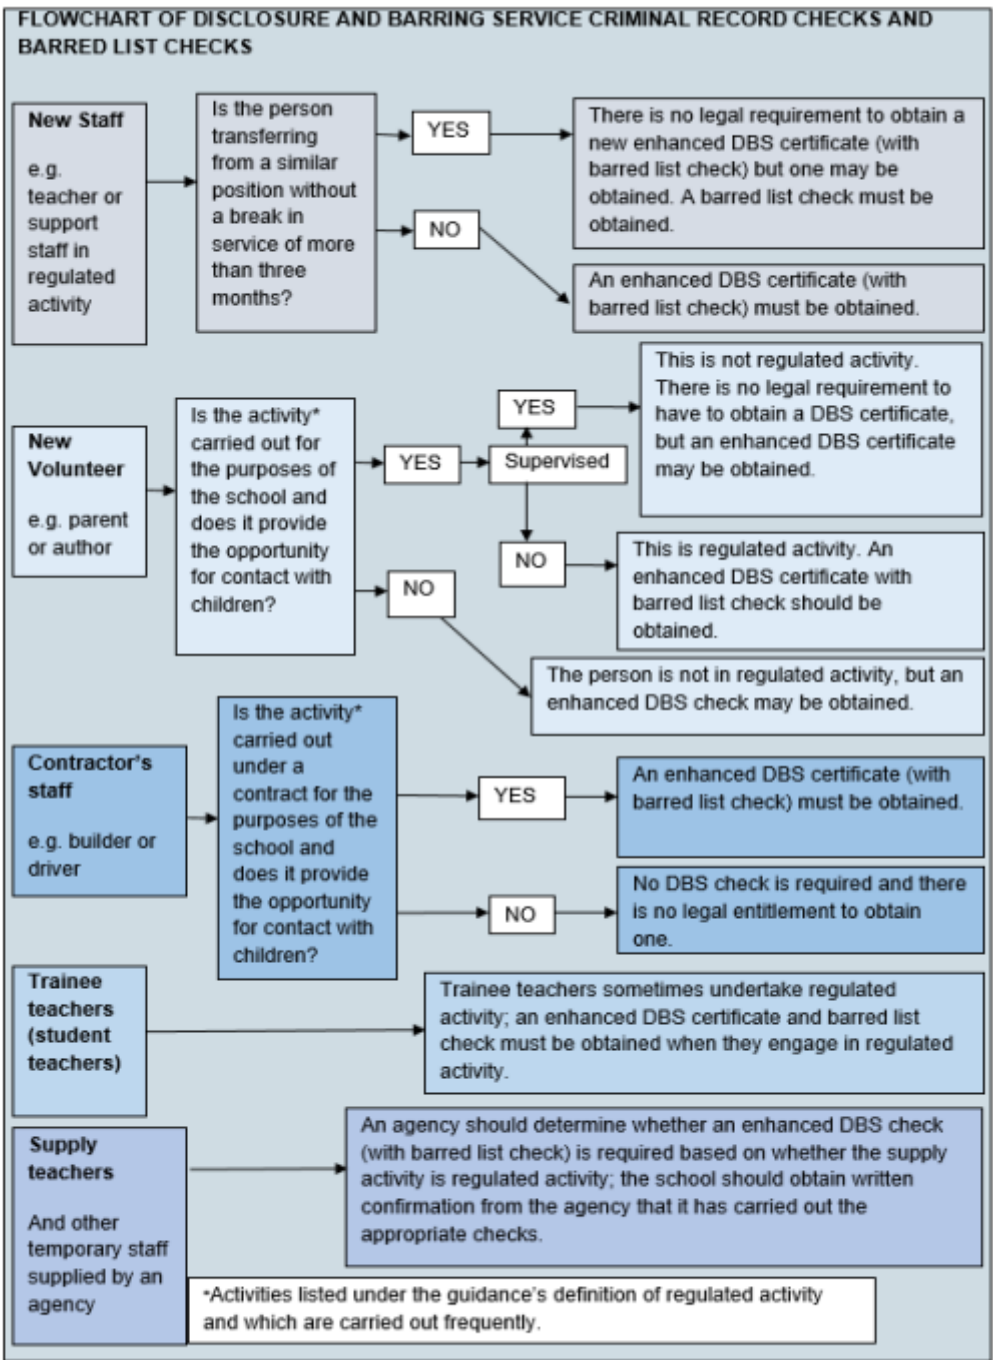

Private fostering occurs when a child under the age of 16 (under 18 for children with a disability) is provided with care and accommodation by a person who is not a parent, person with parental responsibility for them or a relative in their own home

A child is not privately fostered if the person caring for and accommodating them has done so for less than 28 days and does not intend to do so for longer. Such arrangements may come to the attention of school staff through the normal course of their interaction, and promotion of learning activities, with children.

Where the arrangements come to the attention of the school (and the school is not involved in the arrangements), they should then notify the local authority to allow the local authority to check the arrangement is suitable and safe for the child.

Schools who are involved (whether or not directly) in arranging for a child to be fostered privately must notify local authorities of the arrangement as soon as possible after the arrangement has been made. Notifications must contain the information specified in Schedule 1 of The Children (Private Arrangements for Fostering) Regulations 2005 and must be made in writing

For reference:

Appendix 3: allegations of abuse made against staff

Section 1: allegations that may meet the harms threshold

This section is based on 'Section 1: Allegations that may meet the harms threshold' in part 4 of Keeping Children Safe in Education 2022.

This section applies to all cases in which it is alleged that a current member of staff, including a supply teacher, volunteer or contractor, has:

- Behaved in a way that has harmed a child, or may have harmed a child, and/or
- Possibly committed a criminal offence against or related to a child, and/or
- Behaved towards a child or children in a way that indicates they may pose a risk of harm to children, and/or
- Behaved or may have behaved in a way that indicates they may not be suitable to work with children – this includes behaviour taking place both inside and outside of school

If we're in any doubt as to whether a concern meets the harm threshold, we will consult our local authority designated officer (LADO).

We will deal with any allegation of abuse quickly, in a fair and consistent way that provides effective child protection while also supporting the individual who is the subject of the allegation.

A 'case manager' will lead any investigation. This will be the headteacher, or the chair of governors where the headteacher is the subject of the allegation. The case manager will be identified at the earliest opportunity.

Our procedures for dealing with allegations will be applied with common sense and judgement.

Suspension of the accused until the case is resolved

Suspension of the accused will not be the default position, and will only be considered in cases where there is reason to suspect that a child or other children is/are at risk of harm, or the case is so serious that there might be grounds for dismissal. In such cases, we will only suspend an individual if we have considered all other options available and there is no reasonable alternative.

Based on an assessment of risk, we will consider alternatives such as:

- Redeployment within the school so that the individual does not have direct contact with the child or children concerned
- Providing an assistant to be present when the individual has contact with children
- Redeploying the individual to alternative work in the school so that they do not have unsupervised access to children
- Moving the child or children to classes where they will not come into contact with the individual, making it clear that this is not a punishment and parents/carers have been consulted
- Temporarily redeploying the individual to another role in a different location, for example to an alternative school or other work for the academy trust.

If in doubt, the case manager will seek views from the school's personnel adviser and the designated officer at the local authority, as well as the police and children's social care where they have been involved.

Definitions for outcomes of allegation investigations

- **Substantiated:** there is sufficient evidence to prove the allegation
- **Malicious:** there is sufficient evidence to disprove the allegation and there has been a deliberate act to deceive, or to cause harm to the subject of the allegation
- **False:** there is sufficient evidence to disprove the allegation

- **Unsubstantiated:** there is insufficient evidence to either prove or disprove the allegation (this does not imply guilt or innocence)
- **Unfounded:** to reflect cases where there is no evidence or proper basis which supports the allegation being made

Procedure for dealing with allegations

In the event of an allegation that meets the criteria above, the case manager will take the following steps:

- Conduct basic enquiries in line with local procedures to establish the facts to help determine whether there is any foundation to the allegation before carrying on with the steps below
- Discuss the allegation with the designated officer at the local authority. This is to consider the nature, content and context of the allegation and agree a course of action, including whether further enquiries are necessary to enable a decision on how to proceed, and whether it is necessary to involve the police and/or children's social care services. (The case manager may, on occasion, consider it necessary to involve the police *before* consulting the designated officer – for example, if the accused individual is deemed to be an immediate risk to children or there is evidence of a possible criminal offence. In such cases, the case manager will notify the designated officer as soon as practicably possible after contacting the police)
- Inform the accused individual of the concerns or allegations and likely course of action as soon as possible after speaking to the designated officer (and the police or children's social care services, where necessary). Where the police and/or children's social care services are involved, the case manager will only share such information with the individual as has been agreed with those agencies
- Where appropriate (in the circumstances described above), carefully consider whether suspension of the individual from contact with children at the school is justified or whether alternative arrangements such as those outlined above can be put in place. Advice will be sought from the designated officer, police and/or children's social care services, as appropriate
- Where the case manager is concerned about the welfare of other children in the community or the individual's family, they will discuss these concerns with the DSL and make a risk assessment of the situation. If necessary, the DSL may make a referral to children's social care
- **If immediate suspension is considered necessary**, agree and record the rationale for this with the designated officer. The record will include information about the alternatives to suspension that have been considered, and why they were rejected. Written confirmation of the suspension will be provided to the individual facing the allegation or concern within 1 working day, and the individual will be given a named contact at the school and their contact details
- **If it is decided that no further action is to be taken** in regard to the subject of the allegation or concern, record this decision and the justification for it and agree with the designated officer what information should be put in writing to the individual and by whom, as well as what action should follow both in respect of the individual and those who made the initial allegation
- **If it is decided that further action is needed**, take steps as agreed with the designated officer to initiate the appropriate action in school and/or liaise with the police and/or children's social care services as appropriate
- Provide effective support for the individual facing the allegation or concern, including appointing a named representative to keep them informed of the progress of the case and considering what other support is appropriate. Staff can turn to the following for advice – trade union representatives, or a colleague, for example – and our counselling provision.
- Inform the parents or carers of the child/children involved about the allegation as soon as possible if they do not already know (following agreement with children's social care services and/or the police, if applicable). The case manager will also inform the parents or carers of the requirement to maintain confidentiality about any allegations made against teachers (where this applies) while investigations are ongoing. Any parent or carer who wishes to have the confidentiality restrictions removed in respect of a teacher will be advised to seek legal advice

- Keep the parents or carers of the child/children involved informed of the progress of the case (only in relation to their child – no information will be shared regarding the staff member)
- Make a referral to the DBS where it is thought that the individual facing the allegation or concern has engaged in conduct that harmed or is likely to harm a child, or if the individual otherwise poses a risk of harm to a child

If the school is made aware that the secretary of state has made an interim prohibition order in respect of an individual, we will immediately suspend that individual from teaching, pending the findings of the investigation by the Teaching Regulation Agency.

Where the police are involved, wherever possible the school will ask the police at the start of the investigation to obtain consent from the individuals involved to share their statements and evidence for use in the school's disciplinary process, should this be required at a later point.

Timescales

We will deal with all allegations as quickly and effectively as possible and will endeavour to comply with the following timescales, where reasonably practicable:

- Any cases where it is clear immediately that the allegation is unsubstantiated or malicious should be resolved within 1 week
- If the nature of an allegation does not require formal disciplinary action, appropriate action should be taken within 3 working days
- If a disciplinary hearing is required and can be held without further investigation, this should be held within 15 working days

However, these are objectives only and where they are not met, we will endeavour to take the required action as soon as possible thereafter.

Specific actions

Action following a criminal investigation or prosecution

The case manager will discuss with the local authority's designated officer whether any further action, including disciplinary action, is appropriate and, if so, how to proceed, taking into account information provided by the police and/or children's social care services.

Conclusion of a case where the allegation is substantiated

If the allegation is substantiated and the individual is dismissed or the school ceases to use their services, or the individual resigns or otherwise ceases to provide their services, the school will make a referral to the DBS for consideration of whether inclusion on the barred lists is required.

If the individual concerned is a member of teaching staff, the school will consider whether to refer the matter to the Teaching Regulation Agency to consider prohibiting the individual from teaching.

Individuals returning to work after suspension

If it is decided on the conclusion of a case that an individual who has been suspended can return to work, the case manager will consider how best to facilitate this.

The case manager will also consider how best to manage the individual's contact with the child or children who made the allegation, if they are still attending the school.

Unsubstantiated, unfounded, false or malicious reports

If a report is:

- Determined to be unsubstantiated, unfounded, false or malicious, the DSL will consider the appropriate next steps. If they consider that the child and/or person who made the allegation is in need of help, or the allegation may have been a cry for help, a referral to children's social care may be appropriate
- Shown to be deliberately invented, or malicious, the school will consider whether any disciplinary action is appropriate against the individual(s) who made it

Unsubstantiated, unfounded, false or malicious allegations

If an allegation is:

- Determined to be unsubstantiated, unfounded, false or malicious, the LADO and case manager will consider the appropriate next steps. If they consider that the child and/or person who made the allegation is in need of help, or the allegation may have been a cry for help, a referral to children's social care may be appropriate
- Shown to be deliberately invented, or malicious, the school will consider whether any disciplinary action is appropriate against the individual(s) who made it

Confidentiality and information sharing

The school will make every effort to maintain confidentiality and guard against unwanted publicity while an allegation is being investigated or considered.

The case manager will take advice from the LADO, police and children's social care services, as appropriate, to agree:

- Who needs to know about the allegation and what information can be shared
- How to manage speculation, leaks and gossip, including how to make parents or carers of a child/children involved aware of their obligations with respect to confidentiality
- What, if any, information can be reasonably given to the wider community to reduce speculation
- How to manage press interest if, and when, it arises

Record-keeping

The case manager will maintain clear records about any case where the allegation or concern meets the criteria above and store them on the individual's confidential personnel file for the duration of the case.

The records of any allegation that, following an investigation, is found to be malicious or false will be deleted from the individual's personnel file (unless the individual consents for the records to be retained on the file).

For all other allegations (which are not found to be malicious or false), the following information will be kept on the file of the individual concerned:

- A clear and comprehensive summary of the allegation
- Details of how the allegation was followed up and resolved
- Notes of any action taken, decisions reached and the outcome
- A declaration on whether the information will be referred to in any future reference

In these cases, the school will provide a copy to the individual, in agreement with children's social care or the police as appropriate.

Where records contain information about allegations of sexual abuse, we will preserve these for the Independent Inquiry into Child Sexual Abuse (IICSA), for the term of the inquiry. We will retain all other records at least until the individual has reached normal pension age, or for 10 years from the date of the allegation if that is longer.

References

When providing employer references, we will:

- Not refer to any allegation that has been found to be false, unfounded, unsubstantiated or malicious, or any repeated allegations which have all been found to be false, unfounded, unsubstantiated or malicious
- Include substantiated allegations, provided that the information is factual and does not include opinions

Learning lessons

After any cases where the allegations are *substantiated*, the case manager will review the circumstances of the case with the local authority's designated officer to determine whether there are any improvements that we can make to the school's procedures or practice to help prevent similar events in the future.

This will include consideration of (as applicable):

- Issues arising from the decision to suspend the member of staff
- The duration of the suspension
- Whether or not the suspension was justified
- The use of suspension when the individual is subsequently reinstated. We will consider how future investigations of a similar nature could be carried out without suspending the individual

For all other cases, the case manager will consider the facts and determine whether any improvements can be made.

Non-recent allegations

Abuse can be reported, no matter how long ago it happened.

We will report any non-recent allegations made by a child to the LADO in line with our local authority's procedures for dealing with non-recent allegations.

Where an adult makes an allegation to the school that they were abused as a child, we will advise the individual to report the allegation to the police.

Section 2: concerns that do not meet the harm threshold

The section is based on 'Section 2: Concerns that do not meet the harm threshold' in part 4 of Keeping Children Safe in Education 2022.

This section applies to all concerns (including allegations) about members of staff, including supply teachers, volunteers and contractors, which do not meet the harm threshold set out in section 1 above.

Concerns may arise through, for example:

- Suspicion
- Complaint
- Safeguarding concern or allegation from another member of staff
- Disclosure made by a child, parent or other adult within or outside the school
- Pre-employment vetting checks

We recognise the importance of responding to and dealing with any concerns in a timely manner to safeguard the welfare of children.

Definition of low-level concerns

The term 'low-level' concern is any concern – no matter how small – that an adult working in or on behalf of the school may have acted in a way that:

- Is inconsistent with the staff code of conduct, including inappropriate conduct outside of work, **and**
- Does not meet the allegations threshold or is otherwise not considered serious enough to consider a referral to the designated officer at the local authority

Examples of such behaviour could include, but are not limited to:

- Being overly friendly with children
- Having favourites
- Taking photographs of children on their mobile phone
- Engaging with a child on a one-to-one basis in a secluded area or behind a closed door

- Humiliating pupils

Sharing low-level concerns

We recognise the importance of creating a culture of openness, trust and transparency to encourage all staff to confidentially share low-level concerns so that they can be addressed appropriately.

We will create this culture by:

- Ensuring staff are clear about what appropriate behaviour is, and are confident in distinguishing expected and appropriate behaviour from concerning, problematic or inappropriate behaviour, in themselves and others
- Empowering staff to share any low-level concerns
- Empowering staff to self-refer
- Addressing unprofessional behaviour and supporting the individual to correct it at an early stage
- Providing a responsive, sensitive and proportionate handling of such concerns when they are raised
- Helping to identify any weakness in the school's safeguarding system

Responding to low-level concerns

If the concern is raised via a third party, the headteacher will collect evidence where necessary by speaking:

- Directly to the person who raised the concern, unless it has been raised anonymously
- To the individual involved and any witnesses

The headteacher will use the information collected to categorise the type of behaviour and determine any further action, in line with the school's staff code of conduct. The headteacher will be the ultimate decision-maker in respect of all low-level concerns, though they may wish to collaborate with the DSL.

Refer to the [Developing and implementing a low-level concerns policy: A guide for organisations which work with children](#)] where appropriate.

Record keeping

All low-level concerns will be recorded in writing. In addition to details of the concern raised, records will include the context in which the concern arose, any action taken and the rationale for decisions and action taken.

Records will be:

- Kept confidential, held securely and comply with the DPA 2018 and UK GDPR
- Reviewed so that potential patterns of concerning, problematic or inappropriate behaviour can be identified. Where a pattern of such behaviour is identified, we will decide on a course of action, either through our disciplinary procedures or, where a pattern of behaviour moves from a concern to meeting the harms threshold as described in section 1 of this appendix, we will refer it to the designated officer at the local authority
- Retained at least until the individual leaves employment at the school

Where a low-level concern relates to a supply teacher or contractor, we will notify the individual's employer, so any potential patterns of inappropriate behaviour can be identified.

References

We will not include low-level concerns in references unless:

- The concern (or group of concerns) has met the threshold for referral to the designated officer at the local authority and is found to be substantiated; and/or
- The concern (or group of concerns) relates to issues which would ordinarily be included in a reference, such as misconduct or poor performance

Appendix 4: specific safeguarding issues

This appendix is mostly based on the advice in Keeping Children Safe in Education, in particular annex B – Annex B also includes information on further issues to be aware of, including child abduction and community safety incidents, children’s involvement in the court system, children with family members in prison, county lines, modern slavery and cybercrime.

Children missing from education

A child going missing from education, particularly repeatedly, can be a warning sign of a range of safeguarding issues. This might include abuse or neglect, such as sexual abuse or exploitation or child criminal exploitation, or issues such as mental health problems, substance abuse, radicalisation, FGM or forced marriage.

There are many circumstances where a child may become missing from education, but some children are particularly at risk. These include children who:

- Are at risk of harm or neglect
- Are at risk of forced marriage or FGM
- Come from Gypsy, Roma, or Traveller families
- Come from the families of service personnel
- Go missing or run away from home or care
- Are supervised by the youth justice system
- Cease to attend a school
- Come from new migrant families

We will follow our procedures for unauthorised absence and for dealing with children who go missing from education, particularly on repeat occasions, to help identify the risk of abuse and neglect, including sexual exploitation, and to help prevent the risks of going missing in future. This includes informing the local authority KCC if a child leaves the school without a new school being named, and adhering to requirements with respect to sharing information with the local authority, when applicable, when removing a child’s name from the admission register at non-standard transition points.

Staff will be trained in signs to look out for and the individual triggers to be aware of when considering the risks of potential safeguarding concerns which may be related to being missing, such as travelling to conflict zones, FGM and forced marriage.

If a staff member suspects that a child is suffering from harm or neglect, we will follow local child protection procedures, including with respect to making reasonable enquiries. We will make an immediate referral to the local authority children’s social care team, and the police, if the child is suffering or likely to suffer from harm, or in immediate danger.

Child criminal exploitation

Child criminal exploitation (CCE) is a form of abuse where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into criminal activity, in exchange for something the victim needs or wants, and/or for the financial or other advantage of the perpetrator or facilitator, and/or through violence or the threat of violence.

The abuse can be perpetrated by males or females, and children or adults. It can be a one-off occurrence or a series of incidents over time, and range from opportunistic to complex organised abuse.

The victim can be exploited even when the activity appears to be consensual. It does not always involve physical contact and can happen online. For example, young people may be forced to work in cannabis factories, coerced into moving drugs or money across the country (county lines), forced to shoplift or pickpocket, or to threaten other young people.

Indicators of CCE can include a child:

- Appearing with unexplained gifts or new possessions
- Associating with other young people involved in exploitation
- Suffering from changes in emotional wellbeing
- Misusing drugs and alcohol
- Going missing for periods of time or regularly coming home late
- Regularly missing school or education
- Not taking part in education

If a member of staff suspects CCE, they will discuss this with the DSL. The DSL will trigger the local safeguarding procedures, including a referral to the local authority's children's social care team and the police, if appropriate.

Child sexual exploitation

Child sexual exploitation (CSE) is a form of child sexual abuse where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child into sexual activity, in exchange for something the victim needs or wants and/or for the financial advantage or increased status of the perpetrator or facilitator. It may, or may not, be accompanied by violence or threats of violence.

The abuse can be perpetrated by males or females, and children or adults. It can be a one-off occurrence or a series of incidents over time, and range from opportunistic to complex organised abuse.

The victim can be exploited even when the activity appears to be consensual. Children or young people who are being sexually exploited may not understand that they are being abused. They often trust their abuser and may be tricked into believing they are in a loving, consensual relationship.

CSE can include both physical contact (penetrative and non-penetrative acts) and non-contact sexual activity. It can also happen online. For example, young people may be persuaded or forced to share sexually explicit images of themselves, have sexual conversations by text, or take part in sexual activities using a webcam. CSE may also occur without the victim's immediate knowledge, for example through others copying videos or images.

In addition to the CCE indicators above, indicators of CSE can include a child:

- Having an older boyfriend or girlfriend
- Suffering from sexually transmitted infections or becoming pregnant

If a member of staff suspects CSE, they will discuss this with the DSL. The DSL will trigger the local safeguarding procedures, including a referral to the local authority's children's social care team and the police, if appropriate.

Child-on-child abuse

Child-on-child abuse is when children abuse other children. This type of abuse can take place inside and outside of school. It can also take place both face-to-face and online, and can occur simultaneously between the 2.

Our school has a zero-tolerance approach to sexual violence and sexual harassment. We recognise that even if there are there no reports, that doesn't mean that this kind of abuse isn't happening.

Child-on-child abuse is most likely to include, but may not be limited to:

- Bullying (including cyber-bullying, prejudice-based and discriminatory bullying)
- Abuse in intimate personal relationships between children (this is sometimes known as 'teenage relationship abuse')
- Physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm (this may include an online element which facilitates, threatens and/or encourages physical abuse)

- Sexual violence, such as rape, assault by penetration and sexual assault (this may include an online element which facilitates, threatens and/or encourages sexual violence)
- Sexual harassment, such as sexual comments, remarks, jokes and online sexual harassment, which may be standalone or part of a broader pattern of abuse
- Causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party
- Consensual and non-consensual sharing of nude and semi-nude images and/or videos (also known as sexting or youth produced sexual imagery)
- Upskirting, which typically involves taking a picture under a person's clothing without their permission, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm
- Initiation/hazing type violence and rituals (this could include activities involving harassment, abuse or humiliation used as a way of initiating a person into a group and may also include an online element)

Where children abuse their peers online, this can take the form of, for example, abusive, harassing, and misogynistic messages; the non-consensual sharing of indecent images, especially around chat groups; and the sharing of abusive images and pornography, to those who don't want to receive such content.

If staff have any concerns about child-on-child abuse, or a child makes a report to them, they will follow the procedures set out in section 7 of this policy, as appropriate. In particular, section 7.8 and 7.9 set out more detail about our school's approach to this type of abuse.

When considering instances of harmful sexual behaviour between children, we will consider their ages and stages of development. We recognise that children displaying harmful sexual behaviour have often experienced their own abuse and trauma, and will offer them appropriate support.

Domestic abuse

Children can witness and be adversely affected by domestic abuse and/or violence at home where it occurs between family members. In some cases, a child may blame themselves for the abuse or may have had to leave the family home as a result.

Types of domestic abuse include intimate partner violence, abuse by family members, teenage relationship abuse (abuse in intimate personal relationships between children) and child/adolescent to parent violence and abuse. It can be physical, sexual, financial, psychological or emotional. It can also include ill treatment that isn't physical, as well as witnessing the ill treatment of others – for example, the impact of all forms of domestic abuse on children.

Anyone can be a victim of domestic abuse, regardless of gender, age, ethnicity, socioeconomic status, sexuality or background, and domestic abuse can take place inside or outside of the home. Children who witness domestic abuse are also victims.

Older children may also experience and/or be the perpetrators of domestic abuse and/or violence in their own personal relationships. This can include sexual harassment.

Exposure to domestic abuse and/or violence can have a serious, long-lasting emotional and psychological impact on children and affect their health, wellbeing, development and ability to learn.

If police are called to an incident of domestic abuse and any children in the household have experienced the incident, the police will inform the key adult in school (usually the designated safeguarding lead) before the child or children arrive at school the following day. This is the procedure where police forces are part of [Operation Encompass](#). The DSL will provide support according to the child's needs and update records about their circumstances.

Homelessness

Being homeless or being at risk of becoming homeless presents a real risk to a child's welfare.

The DSL /deputies will be aware of contact details and referral routes into the local housing authority so they can raise/progress concerns at the earliest opportunity (where appropriate and in accordance with local procedures).

Where a child has been harmed or is at risk of harm, the DSL will also make a referral to children's social care.

So-called 'honour-based' abuse (including FGM and forced marriage)

So-called 'honour-based' abuse (HBA) encompasses incidents or crimes committed to protect or defend the honour of the family and/or community, including FGM, forced marriage, and practices such as breast ironing.

Abuse committed in this context often involves a wider network of family or community pressure and can include multiple perpetrators.

All forms of HBA are abuse and will be handled and escalated as such. All staff will be alert to the possibility of a child being at risk of HBA or already having suffered it. If staff have a concern, they will speak to the DSL, who will activate local safeguarding procedures.

FGM

The DSL will make sure that staff have access to appropriate training to equip them to be alert to children affected by FGM or at risk of FGM.

Section 7.3 of this policy sets out the procedures to be followed if a staff member discovers that an act of FGM appears to have been carried out or suspects that a pupil is at risk of FGM.

Indicators that FGM has already occurred include:

- A pupil confiding in a professional that FGM has taken place
- A mother/family member disclosing that FGM has been carried out
- A family/pupil already being known to social services in relation to other safeguarding issues
- A girl:
 - Having difficulty walking, sitting or standing, or looking uncomfortable
 - Finding it hard to sit still for long periods of time (where this was not a problem previously)
 - Spending longer than normal in the bathroom or toilet due to difficulties urinating
 - Having frequent urinary, menstrual or stomach problems
 - Avoiding physical exercise or missing PE
 - Being repeatedly absent from school, or absent for a prolonged period
 - Demonstrating increased emotional and psychological needs – for example, withdrawal or depression, or significant change in behaviour
 - Being reluctant to undergo any medical examinations
 - Asking for help, but not being explicit about the problem
 - Talking about pain or discomfort between her legs

Potential signs that a pupil may be at risk of FGM include:

- The girl's family having a history of practising FGM (this is the biggest risk factor to consider)
- FGM being known to be practised in the girl's community or country of origin
- A parent or family member expressing concern that FGM may be carried out
- A family not engaging with professionals (health, education or other) or already being known to social care in relation to other safeguarding issues
- A girl:

- Having a mother, older sibling or cousin who has undergone FGM
- Having limited level of integration within UK society
- Confiding to a professional that she is to have a “special procedure” or to attend a special occasion to “become a woman”
- Talking about a long holiday to her country of origin or another country where the practice is prevalent, or parents/carers stating that they or a relative will take the girl out of the country for a prolonged period
- Requesting help from a teacher or another adult because she is aware or suspects that she is at immediate risk of FGM
- Talking about FGM in conversation – for example, a girl may tell other children about it (although it is important to take into account the context of the discussion)
- Being unexpectedly absent from school
- Having sections missing from her ‘red book’ (child health record) and/or attending a travel clinic or equivalent for vaccinations/anti-malarial medication

The above indicators and risk factors are not intended to be exhaustive.

Forced marriage

Forcing a person into marriage is a crime. A forced marriage is one entered into without the full and free consent of 1 or both parties and where violence, threats, or any other form of coercion is used to cause a person to enter into a marriage. Threats can be physical or emotional and psychological.

Staff will receive training around forced marriage and the presenting symptoms. We are aware of the ‘1 chance’ rule, i.e. we may only have 1 chance to speak to the potential victim and only 1 chance to save them.

If a member of staff suspects that a pupil is being forced into marriage, they will speak to the pupil about their concerns in a secure and private place. They will then report this to the DSL.

The DSL will:

- Speak to the pupil about the concerns in a secure and private place
- Activate the local safeguarding procedures and refer the case to the local authority’s designated officer
- Seek advice from the Forced Marriage Unit on 020 7008 0151 or fmf@fco.gov.uk
- Refer the pupil to an education welfare officer, pastoral tutor, learning mentor, or school counsellor, as appropriate

Preventing radicalisation

- **Radicalisation** refers to the process by which a person comes to support terrorism and extremist ideologies associated with terrorist groups
- **Extremism** is vocal or active opposition to fundamental British values, such as democracy, the rule of law, individual liberty, and mutual respect and tolerance of different faiths and beliefs. This also includes calling for the death of members of the armed forces
- **Terrorism** is an action that:
 - Endangers or causes serious violence to a person/people;
 - Causes serious damage to property; or
 - Seriously interferes or disrupts an electronic system

The use or threat of terrorism must be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious or ideological cause.

Schools have a duty to prevent children from being drawn into terrorism. The DSL will undertake Prevent awareness training and make sure that staff have access to appropriate training to equip them to identify children at risk.

We will assess the risk of children in our school being drawn into terrorism. This assessment will be based on an understanding of the potential risk in our local area, in collaboration with our local safeguarding partners and local police force.

We will ensure that suitable internet filtering is in place, and equip our pupils to stay safe online at school and at home.

There is no single way of identifying an individual who is likely to be susceptible to an extremist ideology. Radicalisation can occur quickly or over a long period.

Staff will be alert to changes in pupils' behaviour.

The government website [Educate Against Hate](#) and charity [NSPCC](#) say that signs that a pupil is being radicalised can include:

- Refusal to engage with, or becoming abusive to, peers who are different from themselves
- Becoming susceptible to conspiracy theories and feelings of persecution
- Changes in friendship groups and appearance
- Rejecting activities they used to enjoy
- Converting to a new religion
- Isolating themselves from family and friends
- Talking as if from a scripted speech
- An unwillingness or inability to discuss their views
- A sudden disrespectful attitude towards others
- Increased levels of anger
- Increased secretiveness, especially around internet use
- Expressions of sympathy for extremist ideologies and groups, or justification of their actions
- Accessing extremist material online, including on Facebook or Twitter
- Possessing extremist literature
- Being in contact with extremist recruiters and joining, or seeking to join, extremist organisations

Children who are at risk of radicalisation may have low self-esteem, or be victims of bullying or discrimination. It is important to note that these signs can also be part of normal teenage behaviour – staff should have confidence in their instincts and seek advice if something feels wrong.

If staff are concerned about a pupil, they will follow our procedures set out in section 7.5 of this policy, including discussing their concerns with the DSL.

Staff should **always** take action if they are worried.

Further information on the school's measures to prevent radicalisation are set out in other school policies and procedures such as through the PSHE and mentoring curriculum

Sexual violence and sexual harassment between children in schools

Sexual violence and sexual harassment can occur:

- Between 2 children of any age and sex
- Through a group of children sexually assaulting or sexually harassing a single child or group of children
- Online and face to face (both physically and verbally)

Sexual violence and sexual harassment exist on a continuum and may overlap.

Children who are victims of sexual violence and sexual harassment will likely find the experience stressful and distressing. This will, in all likelihood, adversely affect their educational attainment and will be exacerbated if the alleged perpetrator(s) attends the same school.

If a victim reports an incident, it is essential that staff make sure they are reassured that they are being taken seriously and that they will be supported and kept safe. A victim should never be given the impression that they are creating a problem by reporting any form of abuse or neglect. Nor should a victim ever be made to feel ashamed for making a report.

When supporting victims, staff will:

- Reassure victims that the law on child-on-child abuse is there to protect them, not criminalise them
- Regularly review decisions and actions, and update policies with lessons learnt
- Look out for potential patterns of concerning, problematic or inappropriate behaviour, and decide on a course of action where we identify any patterns
- Consider if there are wider cultural issues within the school that enabled inappropriate behaviour to occur and whether revising policies and/or providing extra staff training could minimise the risk of it happening again
- Remain alert to the possible challenges of detecting signs that a child has experienced sexual violence, and show sensitivity to their needs

Some groups are potentially more at risk. Evidence shows that girls, children with SEN and/or disabilities, and lesbian, gay, bisexual and transgender (LGBT) children are at greater risk.

Staff should be aware of the importance of:

- Challenging inappropriate behaviours
- Making clear that sexual violence and sexual harassment is not acceptable, will never be tolerated and is not an inevitable part of growing up
- Challenging physical behaviours (potentially criminal in nature), such as grabbing bottoms, breasts and genitalia, pulling down trousers, flicking bras and lifting up skirts. Dismissing or tolerating such behaviours risks normalising them

If staff have any concerns about sexual violence or sexual harassment, or a child makes a report to them, they will follow the procedures set out in section 7 of this policy, as appropriate. In particular, section 7.8 and 7.9 set out more detail about our school's approach to this type of abuse.

Serious violence

Indicators which may signal that a child is at risk from, or involved with, serious violent crime may include:

- Increased absence from school
- Change in friendships or relationships with older individuals or groups
- Significant decline in performance
- Signs of self-harm or a significant change in wellbeing
- Signs of assault or unexplained injuries
- Unexplained gifts or new possessions (this could indicate that the child has been approached by, or is involved with, individuals associated with criminal networks or gangs and may be at risk of criminal exploitation (see above))

Risk factors which increase the likelihood of involvement in serious violence include:

- Being male
- Having been frequently absent or permanently excluded from school
- Having experienced child maltreatment
- Having been involved in offending, such as theft or robbery

Staff will be aware of these indicators and risk factors. If a member of staff has a concern about a pupil being involved in, or at risk of, serious violence, they will report this to the DSL.

Checking the identity and suitability of visitors

All visitors will be required to verify their identity to the satisfaction of staff.

If the visitor is unknown to the setting, we will check their credentials and reason for visiting before allowing them to enter the setting. Visitors should be ready to produce identification.

Visitors are expected to sign the visitors' book and wear a visitor's badge.

Visitors to the school who are visiting for a professional purpose, such as educational psychologists and school improvement officers, will be asked to show photo ID and:

- Will be asked to show their DBS certificate, which will be checked alongside their photo ID; or
- The organisation sending the professional, such as the LA or educational psychology service, will provide prior written confirmation that an appropriate level of DBS check has been carried out (if this is provided, we will not ask to see the DBS certificate)

All other visitors, including visiting speakers, will be accompanied by a member of staff at all times. We will not invite into the school any speaker who is known to disseminate extremist views, and will carry out appropriate checks to ensure that any individual or organisation using school facilities is not seeking to disseminate extremist views or radicalise pupils or staff.

Non-collection of children

If a child is not collected at the end of the session/day, we will contact the parents/ named individuals on sims. Make suitable arrangements in liaison with the safeguarding and senior leadership team.

Missing pupils

Our procedures are designed to ensure that a missing child is found and returned to effective supervision as soon as possible. If a child goes missing, we will:

[School procedures in cases of Children Missing Education \(CME\)](#)

Appendix 4A: Scenarios relating to Child Protection

CASE STUDY 1: Jenny Year 7

Scenario: Jenny is normally a happy and healthy Year 7 pupil. Her tutor has noticed that recently she often has bruises on her legs. The tutor noticed it over a period of three weeks, taking little notice initially as children often have bruises. However, the tutor noted that they appeared at the beginning of the week. She spoke to Jenny about them and Jenny said that she had bumped into things. The tutor was not satisfied and spoke to Jenny's PE teacher, asking her to look out for any other bruising. The PE teacher noticed when Jenny had her PE shirt on that she also had bruises on the fleshy parts of the inside of her upper arm as well. Jenny started to get quieter in school. Her homework was not always done over the weekends.

Action: The tutor had noted her concerns and her initial actions and their results. She decided she needed to speak to the DSL and seek further guidance. The DSL agreed there was clear cause for concern and that action should be taken. The DSL spoke to Jenny's Head of Year. The DSL rang Integrated Children's Services (Early Help and Social Services) for a consultation and the school was asked to monitor the situation and contact the home to explain our concerns. The DSL contacted Jenny's mother to explain our

concerns and to also inform her that a conversation had taken place with Integrated Children's Services (Early Help and Social Services).

The mother told the DSL that things were difficult within the family. Money was very tight and the father was working away from home during the week. When he came home he was very tired and had little patience with Jenny. He had got hold of her arms on one occasion and shook her. Jenny's mother was shocked to hear that this had resulted in bruising. She said she did not know what to do. The DSL considered that the family needed support to ensure Jenny's safety and suggested to the mother that Integrated Children's Services (Early Help and Social Services) may be able to offer them some support to assist with their situation. The mother agreed and a referral was made to Integrated Children's Services (Early Help and Social Services) by the DSL.

Outcome: A meeting took place between Integrated Children's Services (Early Help and Social Services) and the family. Jenny was recognised as a child in need and the family was given support and debt counselling. The bruising stopped. They continue to live together and Jenny returned to her previous happy and healthy self.

CASE STUDY 2: Michael Year 10

Scenario: Mr James, while on duty in the Dining Room, noticed that Michael was an excessive eater. He would not only eat his own food in record time, but would swoop upon anyone else's and demolish that as well. Some other children were clearly getting fed-up with him hanging around for their food, and this was leading to difficulties in relationships.

Mr James had a quiet word with Michael, with an intention to focus mainly upon healthy eating issues and about leaving the other children to get on with their lunch in peace. However, he was amazed at how uptight Michael was in his response to him. Michael told him that his Mum was bringing him and his younger brothers and sister up on her own, as Dad had walked out on them. He explained that she worked all day when they were at school, and then went on to an evening job. She was never home before 11p.m. Michael therefore was responsible for looking after his siblings. He cooked for them and fed them, but his Mum never left him enough money for them all so he went without. He got free school lunches, so he tried to make do with just one meal per day.

Action: Mr James spoke to Michael's tutor who had concerns about Michael. He was coming in late in the mornings, and there were reports beginning to come in about him truanting from Period 6. Mr James and the tutor made notes about their concerns.

The tutor spoke to Michael who told her the whole story. He was looking after his siblings, aged 8, 9 and 11. He took the little ones to school and picked them up on certain days and his 11 year old sister did the other days. Michael did all the cooking and the housework.

The school had already written to Michael's mother regarding his truancy and lateness but no reply had been received. Early Help support had not been able to gain access to the house.

The tutor spoke to the DSL and passed on the detailed notes relating to the concerns. A referral was made to Integrated Children's Services (Early Help and Social Services).

Outcome: Michael's mother was contacted by Integrated Children's Services (Early Help and Social Services) and a meeting took place. After a while it was clear that the mother was not going to change her behaviour and it was decided to accommodate the children. The children remained in their schools. Michael's truancy stopped, but his behaviour deteriorated. He received counselling.

CASE STUDY 3: Mr Miles Teacher

Scenario: Mr Miles was a popular teacher. During the September of a new school year he received a card from a child who had left school the previous term. The card was from a girl who had been in his Year 11 GCSE group. In the card she said that she had always liked him and thought that he liked her too. She thought that as she had then left school it would be all right for them to meet and for them to go out for a drink together. In the card she included her mobile phone number and asked him to contact her. She had sent the card to his home address. She knew that he lived in the same town as the school and got his address from the telephone directory.

Action: Mr Miles immediately went to see a Deputy Headteacher, taking the card with him. He explained what had happened and how shocked he was to have received the card that morning. He was at pains to emphasise that he had always had a totally professional relationship with the children he taught and she had misread this relationship. He showed the Deputy Headteacher the card.

The Deputy Headteacher thanked him for his prompt and very sensible response. The Deputy Headteacher rang the girl's home immediately and spoke to her mother. The mother was shocked by her daughter's actions and assured the Deputy Headteacher that her daughter would be making no further contact with Mr Miles. She asked that her apologies were passed on. It was also agreed that if her daughter made any further contact she would be informed.

Outcome: Mr Miles had no further contact from the girl. His prompt action had stopped the situation from developing.

During a conversation in the staff room several weeks later Mr Miles found out from another of the girl's teachers that the girl had written big 'love hearts' with CC (her initials) loves John Miles written around them, all over her exercise books for that subject. The teacher concerned should have responded to this immediately. The girl should have been asked to remove them from her books and the DSL should have been informed. The girl needed to have understood immediately the nature of the professional relationship between teachers and school children, and importantly that there was no scope for anything else. Mr Miles should also have been informed so that he could have spoken to the Headteacher.

CASE STUDY 4: Zayn Year 10

Scenario: The school is concerned about a Muslim pupil called Zayn. He is a 15 year-old boy who has admitted to his form tutor that he has been viewing jihadist videos online and he says that he wants to travel abroad to Syria.

Zayn has learning difficulties and he had been bullied by others in his class. As a result he has become very isolated and does not appear to have any friends at school.

During the conversation which concerned his form tutor Zayn said that he "wanted to help his brothers and sisters who are being murdered".

Action: The school met with Zayn's mother who admitted that she was having difficulty in caring for him. She and Zayn had left his father a couple of months previously as he used to beat her. She mentioned that he was missing his father and was spending a lot of time on his own in his room on his computer.

Outcome: The school referred Zayn to the Channel process and a support package was put into place. This included:

- Referral to Integrated Children's Services (Early Help and Social Services) for parenting classes for Zayn's mother
- Monitoring of the educational support for his learning difficulties
- Monitoring his access to computers at home and at school

- Providing information on reputable charities working in Syria via 'Safer Giving'
 - Referral to a Victim Support domestic violence counsellor for his mother
 - Arranged supervised contact with his father
-

CASE STUDY 5: Anna Year 9

Scenario: Anna came to the school as a transfer from another local seaside town. She was an Eastern European girl aged 14 years and 7 months on entry. Her younger sister aged 8 had also moved to the area and was attending a local primary school. Both girls were in Local Authority care as a result of concerns re trafficking/marriage preparation raised by Anna's previous school.

Action: An initial meeting took place involving the carers, Virtual Schools, Social Services and the school where the issues around the placement were explored. Anna was present for the majority of the meeting.

Both Anna and her younger sibling initially settled in well with her carers and at their schools but a number of issues surrounding Anna rapidly began to emerge. Anna began to abscond from her carers – mainly at weekends - and she would not reappear for some days. Her school friends at the school were showing signs of concern that they could not contact her.

Action: Police and social Services were informed each time Anna went missing. A number of Multi-Agency meetings were held both in Thanet and in Shepway. Police were concerned that Anna was residing in her local ethnic community when she was absconding but were unable to trace her. Concerns were raised that she was being prepared for marriage back in her parents' homeland. Anna continued to abscond and was adamant that she wished to return to her parents' care. Her younger sibling was equally adamant that she wished to remain in care.

After obtaining assurances from the family as to her future, Social Services made the decision to return Anna to her parents and she left the school to return to them. Social Services continue to monitor Anna's welfare.
